The department of human services shall inform the budget section of requests for funding that the department does not recommend to the budget section for approval.

SECTION 7. SUPPLEMENTAL FUND FOR DEVELOPMENTAL DISABILITIES SERVICES.

The funds appropriated in the supplemental fund for developmental disabilities services line item in section 1 of this Act may be allocated by the department of human services, subject to budget section approval, to the human service centers and developmental center to address costs associated with deinstitutionalization, caseload increases, patient stays, or other unanticipated costs associated with serving persons with a developmental disability, for the biennium beginning July 1, 1997, and ending June 30, 1999. The department of human services shall inform the budget section of requests for funding that the department does not recommend to the budget section for approval.

SECTION 8. LEGISLATIVE INTENT - HUMAN SERVICE CENTER SERVICES.

It is the intent of the legislative assembly that while the legislative

assembly is allowing the human service centers more funding flexibility during the 1997-99 biennium, the human service centers are expected to:

1. Continue to utilize standards, guidelines, and practices in effect on March 1, 1997, for providing human services pursuant to subsection 2 of section 50-06-05.3.
2. Continue to strive toward improving the quality of services and monitor and strive to achieve successful client outcomes.
3. Maximize available federal or other funds to provide essential services and for service enhancements.
4. Provide appropriate community services to continue the trend of fewer state hospital and developmental center admissions in order to serve clients, to the extent possible, in a least restrictive environment.
5. Utilize innovative and effective methods of service delivery in order to achieve cost savings to reallocate for performance incentives and to enhance the level of services provided to clients.

SECTION 9. LEGISLATIVE INTENT - FULL-TIME EQUIVALENT EMPLOYEES - EMERGENCY COMMISSION APPROVAL. It is the intent of the legislative assembly that the emergency commission approve requests submitted by a human service center, the state hospital, or the developmental center for authorization to hire additional full-time equivalent positions that are associated with an approved request for funding from the supplemental fund for mental health services or the supplemental fund for developmental disabilities services during the biennium beginning July 1, 1997, and ending June 30, 1999.

SECTION 10. HUMAN SERVICE CENTER SERVICE COSTS - REIMBURSEMENT SYSTEM. Each regional human service center shall report its services provided during the biennium beginning July 1, 1997, and ending June 30, 1999, on a cost per service basis in a form designated by the executive director of the department of human services. The department shall analyze the data collected and develop, for the 1999-2001 biennium, a standardized reimbursement system for the human service centers based on service costs and any supplemental payment costs to be incorporated into the department's 1999-2001 biennium budget request.

SECTION 11. EXEMPTION - EMPLOYEE BONUSES. Notwithstanding section 54-14-03.1, the regional human service centers, state hospital, and developmental center may provide bonus payments to their employees during August 1999, of up to three percent of an employee's base salary from any realized savings resulting from program efficiencies accumulated during the 1997-99 biennium, excluding any supplemental funds for mental health or developmental disabilities services received. A bonus payment may not increase an employee's salary level for which funding request calculations for the 1999-2001 biennium will be based.

SECTION 12. EXEMPTION - BUDGET SECTION APPROVAL AND REPORT. The general fund appropriations contained in subdivision 4 of section 1 and the welfare reform contingency line item in subdivision 2 of this Act are not subject to section 54-44.1-11. The welfare reform contingency may only be spent with prior budget section approval. Any unexpended funds from these appropriations are available during the biennium beginning July 1, 1999, and ending June 30, 2001. The department of human services shall report to the budget section of the legislative council on the status of these appropriations at its fall 1999 meeting.

SECTION 13. A new subsection to section 50-06-05.4 of the North Dakota Century Code is created and enacted as follows:

Each regional director shall have the authority to employ the staff necessary to discharge the center's responsibilities. The regional director shall also have authority, subject to the approval of the executive director of the department and within the limit of legislative appropriations, to make contractual arrangements with public or private agencies or with individuals and organizations to discharge the regional human service center's service delivery responsibilities. The staff of each regional human service center shall include a qualified medical professional who must be designated as the medical director of the center. The medical director must be primarily responsible for coordinating mental health and medically related services. ¹ The executive recommended general fund amount identified by the Department of Human Services for the Northeast Human Service Center has been reduced by \$42,015 from the general fund to reflect the unallocated reduction identified by the Department of Human Services to equal the executive recommendation. Also to match the executive recommendation, the estimated income amount for the Northeast Human Service Center identified by the department has been increased by \$42,015.

² Funding for information technology, including funding relating to the RESPONSE computer project is being removed from the human service centers, the State Hospital, and the Developmental Center and included as part of a computer technology appropriation in subdivision 5 of the Bill.

³ General fund support for the human service centers, the State Hospital, and the Developmental Center is reduced by four percent of an adjusted general fund total that excludes funding for capital improvements and for the RESPONSE project.

⁴ Provides \$1,143,279 from the general fund for a supplemental fund for mental health services and \$181,609 for a supplemental fund for developmental disabilities services that the department may allocate, subject to Budget Section approval to the human service centers, the State Hospital, and the Developmental Center to address costs associated with deinstitutionalization, caseeload increases, patient stays, or other unanticipated costs associated with serving persons with a mental illness or a developmental disability. The section also requires the Department to inform the Budget Section of requests for funding that the department is not asking the Budget Section to approve. The Department of Human Services should provide information on all requests to members of the Budget Section prior to the meeting date.

⁵ Removes funding relating to the transfer of 8.8 FTE positions (\$596,384) and operating costs (\$101,701) to the Department of Corrections for operating a medium security prison on the State Hospital grounds.

6 Adds funding of \$151,851 for costs associated with the sale of utilities to the Department of Corrections. Estimated income is increased by \$290,241, and general fund support is reduced by \$138,390. Adds \$1,295,000 of estimated income generated from the sale of land to the Department of Corrections for the medium security prison. The funding will be used to remodel facilities to relocate the patients which were housed in the facilities that now will be used to house inmates of the Department of Corrections.

7 Adds other funds to allow the Badlands Human Service Center to continue a contract with St. Joseph's Hospital in Dickinson for outpatient behavioral health care.

The amendment provides a single line item appropriation, except for capital improvements which are appropriated separately, for each of the human service centers, the State Hospital, and the Developmental Center rather than the object code line items recommended in the executive budget for the State Hospital, the Developmental Center, and in total for all human service centers. This amendment removes 15.3 FTE vacant positions at the human service centers and eight FTE at the State Hospital.

The amendment includes sections that:

- Provide legislative intent regarding the expectations of services the human service centers are to provide during the 1997-99 biennium.
- Provide legislative intent that the Emergency Commission authorize additional FTE positions for the human service centers, State Hospital, or Developmental Center relating to approved mental health or developmental disabilities supplemental funding.
- Require the department to develop a reimbursement system for the 1999-2001 biennium based on service costs at the human service centers.
- Allow the human service centers, the State Hospital, and the Developmental Center to provide employee bonuses in June 1999 of up to three percent of an employee's salary from program efficiencies accumulated during the 1997-99 biennium.
- Exempt the human service centers, State Hospital, and Developmental Center general fund appropriations from the provision that cancels appropriations at the end of each biennium.
- Regional human service center director positions are unclassified positions and that they serve at the pleasure of the executive director of the Department of Human Services.
- Provide that the \$1,295,000 received by the State Hospital for the sale of land and buildings to the Department of Corrections and appropriated to the State Hospital is an emergency measure.

A new subdivision 5 is added appropriating \$32,263,866 for computer technology, of which \$13,000,000 is from the general fund. Total reductions of \$35,936,533, \$16,672,667 from the general fund, were removed from the individual subdivisions 1 through 4.

New sections are added to House Bill No. 1012 regarding:

- Receipt by the State Hospital of \$1,295,000 for the sale of land and buildings to the Department of Corrections and Rehabilitation, authorizing the sale of the property and appropriating the proceeds as an emergency measure.
- The Department of Human Services meeting the requirements of correspondence dated February 12, 1997, except as waived by the Budget Section, and providing the department may not spend the related general fund appropriations until the requirements are met.
- The Department of Human Services reporting to the Budget Section regarding the status of the RESPOND computer system including system costs and benefits and the receipt of federal funds.
- Providing for a moratorium on basic care beds above 1,471 and nursing home beds above 7,124 and allowing for 10 Alzheimer's beds as a pilot project.
- Authorizing the Department of Human Services to have pilot projects for long-term care case management within available resources.
- Legislative intent regarding collaboration and shared funding in the provision of services to developmentally disabled students transitioning from school to other programs.
- Legislative intent relating to increasing wages for developmentally disabled direct contact staff.
- Allowing the community spouse resource allowance to apply to persons on home and community-based services (North Dakota Century Code Section 54-24.1-02.2).
- Legislative intent regarding case management pilot projects and regarding wage increases for developmentally disabled direct contact staff, and nursing home certified nurses aides.
- Repealing Section 25-04-20 regarding the Westwood Park Assets Management Committee.
