16 **through June 30, 2025)**

- 17 1. To determine the amount of state aid payable to each district, the superintendent of
18 public instruction shall establish each district's baseline funding. A district's baseline
19 funding consists of:
- 20 a. All state aid received by the district in accordance with chapter 15.1-27 during the
21 2018-19 school year;
 - 22 b. An amount equal to the property tax deducted by the superintendent of public
23 instruction to determine the 2018-19 state aid payment;
 - 24 c. An amount equal to seventy-five percent of the revenue received by the school
25 district during the 2017-18 school year for the following revenue types:
 - 26 (1) Revenue reported under code 2000 of the North Dakota school district
27 financial accounting and reporting manual, as developed by the
28 superintendent of public instruction in accordance with section 15.1-02-08;
 - 29 (2) Mineral revenue received by the school district through direct allocation from
30 the state treasurer and not reported under code 2000 of the North Dakota

7 educational program provided at a residential treatment facility, tuition
8 received for the provision of an adult farm management program, and
9 beginning in the 2021-22 school year, seventeen percent of tuition received
10 under an agreement to educate students from a school district on an
11 air force base with funding received through federal impact aid, and an
12 additional seventeen percent of tuition received under an agreement to
13 educate students from a school district on an air force base with funding
14 received through federal impact aid each school year thereafter, until the
15 2024-25 school year when sixty-eight percent of tuition received under an
16 agreement to educate students from a school district on an air force base
17 with funding received through federal impact aid must be excluded from the
18 tuition calculation under this paragraph;

19 (4) Revenue from payments in lieu of taxes on the distribution and transmission
20 of electric power;

21 (5) Revenue from payments in lieu of taxes on electricity generated from
22 sources other than coal; and

1 e. Beginning with the 2020-21 school year, the superintendent shall reduce the
2 baseline funding for any school district that becomes an elementary district
3 pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must
4 be proportional to the number of weighted student units in the grades that are
5 offered through another school district relative to the total number of weighted
6 student units the school district offered in the year before the school district
7 became an elementary district. The reduced baseline funding applies to the
8 calculation of state aid for the first school year in which the school district
9 becomes an elementary district and for each year thereafter. For districts that
10 become an elementary district prior to the 2020-21 school year, the
11 superintendent shall use the reduced baseline funding to calculate state aid for
12 the 2020-21 school year and for each year thereafter.

13 2. a. The superintendent shall divide the district's baseline funding determined in
14 subsection 1 by the district's 2017-18 weighted student units to determine the
15 district's baseline funding per weighted student unit.
16 b. For any school district that becomes an elementary district pursuant to section
17 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the
18 district's baseline funding per weighted student unit used to calculate state aid.
19 The superintendent shall divide the district's baseline funding determined in
20 subsection 1 by the district's weighted student units after the school district
21 becomes an elementary district to determine the district's adjusted baseline
22 funding per weighted student unit. The superintendent shall use the district's
23 adjusted baseline funding per weighted student unit in the calculation of state aid
24 for the first school year in which the school district becomes an elementary
25 district and for each year thereafter.

26 c. Beginning with the 2021-22 school year and for each school year thereafter, the
27 superintendent shall reduce the district's baseline funding per weighted student
28 unit. Each year the superintendent shall calculate the amount by which the
29 district's baseline funding per weighted student unit exceeds the payment per
30 weighted student unit provided in subsection 3. ~~The~~For the 2023-24 school year
31 the superintendent shall reduce the district's baseline funding per weighted

1 student unit by ~~fifteen~~forty percent of the amount by which the district's baseline
2 funding per weighted student unit exceeds the payment per weighted student unit
3 for the ~~2021-22~~2023-24 school year. For each year thereafter, the reduction
4 percentage is increased by an additional fifteen percent. However, the district's
5 baseline funding per weighted student unit, after the reduction, may not be less
6 than the payment per weighted student unit provided in subsection 3.

7 3. a. For the 2023-24 school year, the superintendent shall calculate state aid as the
8 greater of:

9 (1) The district's weighted student units multiplied by ten thousand six hundred
10 forty-six dollars;

11 (2) One hundred two percent of the district's baseline funding per weighted
12 student unit, as established in subsection 2, multiplied by the district's
13 weighted student units, not to exceed the district's 2017-18 baseline
14 weighted student units, plus any weighted student units in excess of the
15 2017-18 baseline weighted student units multiplied by ten thousand six
16 hundred forty-six dollars; or

17 (3) The district's baseline funding as established in subsection 1 less the

17 (a) In addition to deducting tuition revenue received specifically for the
18 operation of an educational program provided at a residential
19 treatment facility, tuition revenue received for the provision of an adult
20 farm management program, and tuition received under an agreement
21 to educate students from a school district on an air force base with
22 funding received through federal impact aid as directed each school
23 year in paragraph 3 of subdivision c of subsection 1, the
24 superintendent of public instruction also shall reduce the total tuition
25 reported by the school district by the amount of tuition revenue

4 superintendent shall reduce all remaining revenues from all revenue types
5 by the percentage of mills levied in 2022 by the school district for sinking
6 and interest relative to the total mills levied in 2022 by the school district for
7 all purposes.

10 requirements or limitations.

11 6. On or before June thirtieth of each year, the school board shall certify to the

24 **Baseline funding - Establishment - Determination of state aid. (Effective after**
25 **June 30, 2025)**

26 1. To determine the amount of state aid payable to each district, the superintendent of
27 public instruction shall establish each district's baseline funding. A district's baseline
28 funding consists of:

29 a. All state aid received by the district in accordance with chapter 15.1-27 during the
30 2018-19 school year;

- 1 b. An amount equal to the property tax deducted by the superintendent of public
2 instruction to determine the 2018-19 state aid payment;
- 3 c. An amount equal to seventy-five percent of the revenue received by the school
4 district during the 2017-18 school year for the following revenue types:

19 beginning in the 2025-26 school year, eighty-five percent of tuition received
20 under an agreement to educate students from a school district on an
21 air force base with funding received through federal impact aid, until the
22 2026-27 school year, and each school year thereafter, when all tuition
23 received under an agreement to educate students from a school district on
24 an air force base with funding received through federal impact aid must be
25 excluded from the tuition calculation under this paragraph;
 - 26 (4) Revenue from payments in lieu of taxes on the distribution and transmission
27 of electric power;
 - 28 (5) Revenue from payments in lieu of taxes on electricity generated from

8 baseline funding for any school district that becomes an elementary district
9 pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must
10 be proportional to the number of weighted student units in the grades that are
11 offered through another school district relative to the total number of weighted
12 student units the school district offered in the year before the school district
13 became an elementary district. The reduced baseline funding applies to the
14 calculation of state aid for the first school year in which the school district
15 becomes an elementary district and for each year thereafter. For districts that
16 become an elementary district prior to the 2020-21 school year, the
17 superintendent shall use the reduced baseline funding to calculate state aid for
18 the 2020-21 school year and for each year thereafter.
- 19 2. a. The superintendent shall divide the district's baseline funding determined in
20 subsection 1 by the district's 2017-18 weighted student units to determine the

25 The superintendent shall divide the district's baseline funding determined in
26 subsection 1 by the district's weighted student units after the school district
27 becomes an elementary district to determine the district's adjusted baseline
28 funding per weighted student unit. The superintendent shall use the district's
29 adjusted baseline funding per weighted student unit in the calculation of state aid
30 for the first school year in which the school district becomes an elementary
31 district and for each year thereafter.

1 c. Beginning with the 2021-22 school year and for each school year thereafter, the
2 superintendent shall reduce the district's baseline funding per weighted student
3 unit. Each year the superintendent shall calculate the amount by which the
4 district's baseline funding per weighted student unit exceeds the payment per
5 weighted student unit provided in subsection 3. ~~The~~For the 2023-24 school year
6 the superintendent shall reduce the district's baseline funding per weighted
7 student unit by ~~fifteen~~forty percent of the amount by which the district's baseline
8 funding per weighted student unit exceeds the payment per weighted student unit
9 for the ~~2021-22~~2023-24 school year. For each year thereafter, the reduction
10 percentage is increased by an additional fifteen percent. However, the district's
11 baseline funding per weighted student unit, after the reduction, may not be less
12 than the payment per weighted student unit provided in subsection 3.

13 3. a. For the 2023-24 school year, the superintendent shall calculate state aid as the
14 greater of:

- 15 (1) The district's weighted student units multiplied by ten thousand six hundred

18 student unit, as established in subsection 2, multiplied by the district's
19 weighted student units, not to exceed the district's 2017-18 baseline
20 weighted student units, plus any weighted student units in excess of the
21 2017-18 baseline weighted student units multiplied by ten thousand six
22 hundred forty-six dollars; or
- 23 (3) The district's baseline funding as established in subsection 1 less the
24 amount in paragraph 1, with the difference reduced by ~~forty-five~~forty percent
25 and then the difference added to the amount determined in paragraph 1.

26 b. For the 2024-25 school year and each school year thereafter, the superintendent
27 shall calculate state aid as the greater of:

- 28 (1) The district's weighted student units multiplied by eleven thousand
29 seventy-two dollars;
- 30 (2) One hundred two percent of the district's baseline funding per weighted
31 student unit, as established in subsection 2, multiplied by the district's

1 weighted student units, not to exceed the district's 2017-18 baseline
2 weighted student units, plus any weighted student units in excess of the
3 2017-18 baseline weighted student units multiplied by eleven thousand
4 seventy-two dollars; or

5 (3) The district's baseline funding as established in subsection 1 less the
6 amount in paragraph 1, with the difference reduced by ~~sixty~~fifty-five percent
7 for the 2024-25 school year and the reduction percentage increasing by
8 fifteen percent each school year thereafter until the difference is reduced to
9 zero, and then the difference added to the amount determined in
10 paragraph 1.

11 4. After determining the product in accordance with subsection 3, the superintendent of
12 public instruction shall:

13 a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the
14 school district; and

15 b. Subtract an amount equal to seventy-five percent of all revenue types listed in
16 subdivisions c and d of subsection 1. Before determining the deduction for
17 seventy-five percent of all revenue types, the superintendent of public instruction
18 shall adjust revenues as follows:

19 (1) Tuition revenue shall be adjusted as follows:

20 (a) In addition to deducting tuition revenue received specifically for the
21 operation of an educational program provided at a residential
22 treatment facility, tuition revenue received for the provision of an adult
23 farm management program, and tuition received under an agreement
24 to educate students from a school district on an air force base with
25 funding received through federal impact aid as directed each school
26 year in paragraph 3 of subdivision c of subsection 1, the
27 superintendent of public instruction also shall reduce the total tuition
28 reported by the school district by the amount of tuition revenue
29 received for the education of students not residing in the state and for
30 which the state has not entered a cross-border education contract;
31 and

1 (b) The superintendent of public instruction also shall reduce the total
2 tuition reported by admitting school districts meeting the requirements
3 of subdivision e of subsection 2 of section 15.1-29-12 by the amount
4 of tuition revenue received for the education of students residing in an
5 adjacent school district.

6 (2) After adjusting tuition revenue as provided in paragraph 1, the
7 superintendent shall reduce all remaining revenues from all revenue types
8 by the percentage of mills levied in 2022 by the school district for sinking
9 and interest relative to the total mills levied in 2022 by the school district for
10 all purposes.

11 5. The amount remaining after the computation required under subsection 4 is the
12 amount of state aid to which a school district is entitled, subject to any other statutory
13 requirements or limitations.

14 6. On or before June thirtieth of each year, the school board shall certify to the
15 superintendent of public instruction the final average daily membership for the current
16 school year.

17 7. For purposes of the calculation in subsection 4, each county auditor, in collaboration
18 with the school districts, shall report the following to the superintendent of public
19 instruction on an annual basis:

20 a. The amount of revenue received by each school district in the county during the
21 previous school year for each type of revenue identified in subdivisions c and d of
22 subsection 1;

27 contribution retirement plan established under this chapter to terminate membership in
28 the public employees retirement system and become a participating member in the
29 defined contribution retirement plan established under this chapter. An election made
30 by a deferred member under this section is irrevocable. The board shall accept written
31 elections under this section from a deferred member during the period beginning on

1 the date of the individual's re-employment and ending upon the expiration of six
2 months after the date of that re-employment. If the board, in its sole discretion,
3 determines that the employee was not adequately notified of the employee's option to
4 participate in the defined contribution retirement plan, the board may provide the
5 employee a reasonable time within which to make that election, which may extend
6 beyond the original six-month decision window. A deferred member who makes and
7 files a written election to remain a member of the public employees retirement system
8 retains all rights and is subject to all conditions as a member of that retirement system.
9 A deferred member who does not make a written election or who does not file the
10 election during the period specified in this section continues to be a member of the
11 public employees retirement system. A deferred member who makes and files a
12 written election to terminate membership in the public employees retirement system
13 ceases to be a member of the public employees retirement system effective on the
14 last day of the payroll period that includes the date of the election; becomes a
15 participating member in the defined contribution retirement plan under this chapter
16 effective the first day of the payroll immediately following the date of the election; and
17 waives all of that person's rights to a pension, an annuity, a retirement allowance,
18 insurance benefit, or any other benefit under the public employees retirement system
19 effective the last day of the payroll that includes the date of the election. This section
20 does not affect any right to health benefits or retiree health benefits to which the
21 deferred member may otherwise be entitled.

- 22 3. An eligible employee who elects under this section to participate in the retirement plan
23 established under this chapter must remain a participant even if that employee returns
24 to the classified service or becomes employed by a political subdivision that
25 participates in the public employees retirement system. The contribution amount must
26 be as provided in this chapter, regardless of the position in which the employee is
27 employed. Notwithstanding the irrevocability provisions of this chapter, if a member
28 who elects to participate in the retirement plan established under this chapter
29 becomes a supreme or district court judge, becomes a member of the highway patrol,
30 becomes employed in a position subject to teachers' fund for retirement membership,
31 or becomes an employee of the board of higher education or state institution under the

1 jurisdiction of the board of higher education who is eligible to participate in an
2 alternative retirement program established under subsection 6 of section 15-10-17, the
3 member's status as a member of the defined contribution retirement plan is
4 suspended, and the member becomes a new member of the retirement plan for which
5 that member's new position is eligible. The member's account balance remains in the
6 defined contribution retirement plan, but no new contributions may be made to that
7 account. The member's service credit and salary history that were forfeited as a result
8 of the member's transfer to the defined contribution retirement plan remain forfeited,
9 and service credit accumulation in the new retirement plan begins from the first day of
10 employment in the new position. If the member later returns to employment that is
11 eligible for the defined contribution retirement plan, the member's suspension must be
12 terminated, the member again becomes a member of the defined contribution
13 retirement plan, and the member's account resumes accepting contributions. At the
14 member's option, and pursuant to rules adopted by the board, the member may
15 transfer any available balance as determined by the provisions of the alternate
16 retirement plan into the member's account under this chapter.

- 17 4. After consultation with its actuary, the board shall determine the method by which a
18 participating member or deferred member may make a written election under this
19 section. If the participating member or deferred member is married at the time of the
20 election, the election is not effective unless the election is signed by the individual's
21 spouse. However, the board may waive this requirement if the spouse's signature
22 cannot be obtained because of extenuating circumstances.
- 23 5. If the board receives notification from the internal revenue service that this section or
24 any portion of this section will cause the public employees retirement system or the
25 retirement plan established under this chapter to be disqualified for tax purposes
26 under the Internal Revenue Code, then the portion that will cause the disqualification
27 does not apply.
- 28 6. A participating member under this section who becomes a temporary employee may
29 still participate in the defined contribution retirement plan upon filing an election with
30 the board within one hundred eighty days of transferring to temporary employee

1 status. The participating member may not become a member of the defined benefit
2 plan as a temporary employee.

3 a. The temporary employee electing to participate in the defined contribution
4 retirement plan shall pay into the plan as provided under section 54-52.6-09.6.

5 b. An employer may not pay the temporary employee's contributions.

6 c. A temporary employee may continue to participate as a temporary employee until
7 termination of employment or reclassification of the temporary employee as a
8 permanent employee.

9 7. A former participating member under this section who has accepted a retirement
10 distribution pursuant to section 54-52.6-13 and who subsequently becomes employed
11 by an entity different from the employer with which the member was employed at the
12 time the member retired but which does participate in any state-sponsored retirement
13 plan may, before re-enrolling in the defined contribution retirement plan, elect to
14 permanently waive future participation in the defined contribution retirement plan,
15 whatever plan in which the new employing entity participates, and the retiree health
16 program and maintain that member's retirement status. Neither the member nor the
17 employer are required to make any future retirement contributions on behalf of that
18 employee.

19 8. After December 31, ~~2024~~2023, an eligible employee is no longer allowed to elect
20 participation under this section.

21 **SECTION 47. AMENDMENT.** Subsection 1 of section 54-52.6-02.1 of the North Dakota
22 Century Code, as created by section 16 of House Bill No. 1040, as approved by the sixty-eighth
23 legislative assembly, is amended and reenacted as follows:

24 1. Except as otherwise provided under section 54-52-02.5 or 54-52-02.15 or this chapter,
25 effective January 1, ~~2025~~2024, an eligible employee who is first enrolled shall
26 participate in the defined contribution retirement plan under this chapter.

27 **SECTION 48. AMENDMENT.** Section 54-52.6-02.2 of the North Dakota Century Code, as
28 created by section 17 of House Bill No. 1040, as approved by the sixty-eighth legislative
29 assembly, is amended and reenacted as follows:

54-52.6-02.2. Election after December 31, ~~2024~~2023 - Additional employer

contribution.

1. As used in this section, "eligible employee" means a permanent state employee who on December 31, ~~2024~~2023, is a participating member of the public employees retirement system main system plan under chapter 54-42, who has been a participating member under chapter 54-52 for no more than five years, and who is at least eighteen years of age.
2. The board shall provide a three-month election period, from January 1, ~~2025~~2024, through March 31, ~~2025~~2024, for an eligible employee to transfer to the defined contribution plan under this chapter pursuant to the rules and policies adopted by the board.
 - a. An election under this section made by a member of the public employees retirement system under chapter 54-52 to transfer to the defined contribution retirement plan under this chapter is irrevocable.
 - b. For an eligible employee who elects to transfer from the public employees retirement system under chapter 54-52 to the defined contribution retirement plan under this chapter, the board shall transfer a lump sum amount from the public employees retirement system fund to the member's account in the defined contribution retirement plan under this chapter. However, if the eligible employee terminates employment before receiving the lump sum transfer under this section, the election made is ineffective and the eligible employee remains a member of the public employees retirement system under chapter 54-52 and retains all the rights and privileges under that chapter.
 - c. The board shall calculate the lump sum amount to be transferred based on the actuarial present value of the eligible employee's accumulated benefit obligation under the public employees retirement system based on the assumption the eligible employee will retire under the earlier applicable normal retirement age, plus interest from January 1, ~~2025~~2024, to the date of transfer, at the rate of one-half of one percent less than the actuarial interest assumption at the time of the election.

1 d. This section does not affect an eligible individual's right to health benefits under
2 chapter 54-52.1.

3 3. The state employer of an eligible employee who elects under this section to participate
4 in the defined contribution retirement plan under this chapter shall pay an additional
5 annual contribution of three thousand three hundred and thirty-three dollars for up to
6 three years. Under this subsection, the employer shall pay the additional contribution
7 each year the eligible employee continues permanent employment with the state,
8 beginning January ~~2026~~2025, and extending no further than January ~~2028~~2027.

9 4. If the board receives notification from the internal revenue service that this section or
10 any portion of this section will cause the public employees retirement system or the
11 retirement plan established under this chapter to be disqualified for tax purposes
12 under the Internal Revenue Code, that portion that will cause the disqualification does
13 not apply.

14 **SECTION 49. AMENDMENT.** Subsection 2 of section 54-52.6-03 of the North Dakota
15 Century Code, as amended by section 18 of House Bill No. 1040, as approved by the sixty-
16 eighth legislative assembly, is amended and reenacted as follows:

17 2. The board shall calculate the amount to be transferred for persons employed after
18 September 30, 2001, and before January 1, ~~2025~~2024, using only the formula
19 contained in subdivision b of subsection 1.

20 **SECTION 50. AMENDMENT.** Section 54-52.6-09 of the North Dakota Century Code, as
21 amended in section 22 of House Bill No. 1040, as approved by the sixty-eighth legislative
22 assembly, is amended and reenacted as follows:

23 **54-52.6-09. Contributions - Penalty.**

24 1. a. A participating member who first joined the defined contribution retirement plan
25 before January 1, ~~2025~~2024, and an employee who elects to participate in the
26 defined contribution plan under section 54-52.6-02.2, shall contribute monthly
27 seven percent of the monthly salary or wage paid to the participant.

28 b. A participating member who first joined the defined contribution retirement plan
29 after December 31, ~~2024~~2023, except for an employee who elects to participate
30 in the defined contribution plan under section 54-52.6-02.2, shall contribute
31 monthly four percent of the monthly salary or wage paid to the participant. In

1 addition, the participating member may elect to contribute monthly up to an
2 additional three percent of the monthly salary or wage paid to the participant.

3 c. This assessment must be deducted from the participant's salary in equal monthly
4 installments commencing with the first month of participation in the defined
5 contribution retirement plan established under this chapter.

6 2. a. For a participating member who first joined the defined contribution retirement
7 plan before January 1, ~~2025~~2024, and for an employee who elects to participate
8 in the defined contribution plan under section 54-52.6-02.2, the employer shall
9 contribute an amount equal to seven and twelve-hundredths percent of the
10 monthly salary or wage of the participating member.

11 b. For a participating member who first joined the defined contribution retirement
12 plan after December 31, ~~2024~~2023, except for an employee who elects to
13 participate in the defined contribution plan under section 54-52.6-02.2, the
14 employer shall contribute an amount equal to four and twelve-hundredths percent
15 of the monthly salary or wage of a participating member, plus up to an additional
16 three percent as an employer matching contribution calculated based on the
17 participating member's election under subdivision b of subsection 1.

18 c. For a participating member first enrolled after December 31, 2019, the employer
19 contribution includes an additional increase of one and fourteen-hundredths
20 percent.

21 d. If the employee's contribution is paid by the employer under subsection 3, the
22 employer shall contribute, in addition, an amount equal to the required
23 employee's contribution. Monthly, the employer shall pay such contribution into
24 the participating member's account from the employer's funds appropriated for
25 payroll and salary or any other funds available for such purposes.

26 e. If the employer fails to pay the contributions monthly, or fails to otherwise comply
27 with the board's established wage reporting or payroll reporting process
28 requirements, the employer is subject to a civil penalty of fifty dollars and, as
29 interest, one percent of the amount due for each month of delay or fraction of a
30 month after the payment became due. In lieu of assessing a civil penalty or one
31 percent per month, or both, interest at the actuarial rate of return may be

1 assessed for each month the contributions are delinquent. If contributions are
2 paid within ninety days of the date the contributions became due, penalty and
3 interest to be paid on delinquent contributions may be waived.

- 4 3. Each employer, at its option, may pay the employee contributions required by this
5 section for all compensation earned after December 31, 1999. The amount paid must
6 be paid by the employer in lieu of contributions by the employee. If the employer
7 decides not to pay the contributions, the amount that would have been paid will
8 continue to be deducted from the employee's compensation. If contributions are paid
9 by the employer, they must be treated as employer contributions in determining tax
10 treatment under this code and the federal Internal Revenue Code. Contributions paid
11 by the employer may not be included as gross income of the employee in determining
12 tax treatment under this code and the federal Internal Revenue Code until they are
13 distributed or made available. The employer shall pay these employee contributions
14 from the same source of funds used in paying compensation to the employee. The
15 employer shall pay these contributions by effecting an equal cash reduction in the
16 gross salary of the employee or by an offset against future salary increases or by a
17 combination of a reduction in gross salary and offset against future salary increases.
18 Employee contributions paid by the employer must be treated for the purposes of this
19 chapter in the same manner and to the same extent as employee contributions made
20 before the date on which employee contributions were assumed by the employer. An
21 employer shall exercise its option under this subsection by reporting its choice to the
22 board in writing.
