PROPOSED AMENDMENTS TO SENATE BILL NO. 2334

That the House recede from its amendments as printed on pages 968 and 969 of the Senate Journal and pages 1150 and 1151 of the House Journal and that Senate Bill No. 2334 be amended as follows:

Page 1, line 2, replace "local revenue loss reimbursement" with "large facility development"

Page 1, line 4, after "plant" insert and "and allocation of sales tax revenue"

Page 1, line 5, replace "and to provide an effective date" with "to provide for a legislative management report; and to provide an expiration date"

Page 1, line 18, after "57-39.2-26.2" insert ", 57-39.2-26.3"

Page 2, line 1, replace "**Local revenue loss reimbursement**" with "**Large facility development**"

Page 2, line 1, after "**appropriation**" insert "**- Report**"

Page 2, line 2, replace "local revenue loss reimbursement" with "large facility development"

Page 2, line 7, replace "57-29.2-26.1 and" with "57-39.2-26.1."

Page 2, line 7, after "57-39.2-26.2" insert ", and 57-39.2-26.3"

Page 2, line 9, replace "local revenue loss reimbursement" with "large facility development"

Page 2, line 13, replace "The" with "Within thirty days after construction begins on the large facility, the"

Page 2, line 14, replace the first "the" with "up to two billion dollars of"

Page 2, line 14, replace "value" with "cost"

Page 2, line 14, after "property" insert "eligible for a tax exemption under section 57-39.2-04.15"

Page 2, line 14, remove "new"

Page 2, line 15, replace "infrastructure" with "the large facility"

Page 2, line 17, after the underscored semicolon insert "and"

Page 2, line 18, remove "The estimated total cost for the new infrastructure is at least five hundred million"

Page 2, remove lines 19 through 21

Page 2, line 22, replace "under chapter 57-40.2" with "The county in which the large facility is located has a hub city and received at least thirty million dollars of oil and gas gross production tax revenue allocations under section 57-51-15 from September 1, 2021, through August 31, 2022"

Page 2, line 23, after "4." insert "To qualify for the distribution under subsection 3, the large facility must:

MoJ  
4/21/23  
2002

- a. Be a new fertilizer or chemical processing plant that is eligible for a tax exemption under section 57-39.2-04.15;
  - b. Begin construction after July 1, 2023; and
  - c. Have an estimated total cost of at least one billion dollars.
5. A county or city may receive only one distribution under subsection 3.
- 6."

Page 2, line 23, replace "new infrastructure" with "large facility"

Page 2, line 25, replace "5." with "7."

Page 2, line 25, replace "tax commissioner may request" with "owner of the large facility shall provide"

Page 2, line 25, remove "from the owner of"

Page 2, line 26, replace "the new infrastructure" with "to the tax commissioner"

Page 2, line 26, replace "value" with "cost"

Page 2, line 27, replace "new infrastructure" with "large facility"

Page 2, after line 27, insert:

"8. If a county or city receives a distribution from the fund, the county or city shall provide at least one report to the legislative management on the use of the funding. The report must include the amount of funding received and spent by the county or city, including an itemized list of the amounts spent and a description of how the funding was used by the county or city."

Page 2, replace line 28, with:

"SECTION 4. EXPIRATION DATE. Sections 2 and 3 of this Act are effective through June 30, 2027, and after that date are ineffective."

Renumber accordingly

Page 2, line 25, remove "from the owner of"

Page 2, line 26, replace "the new infrastructure" with "to the tax commissioner"

Page 2, line 26, replace "value" with "cost"

Page 2, line 27, replace "new infrastructure" with "large facility"

Page 2, after line 27, insert:

- "8. If a county or city receives a distribution from the fund, the county or city shall provide at least one report to the legislative management on the use of the funding. The report must include the amount of funding received and spent by the county or city, including an itemized list of the amounts spent and a description of how the funding was used by the county or city."

Page 2, replace line 28, with:

**"SECTION 4. EXPIRATION DATE.** Sections 2 and 3 of this Act are effective through June 30, 2027, and after that date are ineffective."

Renumber accordingly

SB 2334 was placed on the Seventh order of business on the calendar.

**TESTIMONY**

**SB 2334**

**SB 2334 Hearing**  
**Senate Finance and Tax Committee**  
**Hon. Jordan Kannianen, Chairman**

**January 24, 2023**

**Chairman Kannianen and Committee,**

**Thank you Mr. Chairman. For the record I am Brad Bekkedahl, Senator from District 1, here to introduce SB 2334 which is a bill to remove a sunset on a current sales tax exemption for fertilizer and chemical processing facilities. The change to existing legislation is found on line 9 of page 1 and deletes the language requiring the exemption be applied before the date of June 30, 2023. The critical need for continuation of the sales tax exemption will be better explained by interested parties testifying in support after me. I am sure you will be impressed with the projects they currently have under design to be built near the community of Trenton, North Dakota. In the world of business recruitment, you will also hear testimony from the ND Department of Commerce, which has been critical in working with the company and their decision to site this large facility in our state. The competition was fierce to bring them here, and the removal of this sales tax exemption is a major factor in their location plans. I respectfully request the committee to recommend passage of the exemption sunset date removal.**

**The other area of the bill that is before you is found on page 2 and entails the creation of a local revenue loss reimbursement fund. In recruiting businesses of this size and investment, we have seen that local government entities frequently are called upon to provide incentives and assistance as well as state economic development programs. These could be in the form of property tax exemptions or PILOTS, infrastructure development or improvements such as roads, water, and sewer, along with the need to provide public safety equipment and personnel for protection. I will walk the committee through the provisions of the bill now and then stand for any questions on this part of the bill or the first section dealing with the sales tax exemption sunset date removal.**

**Chairman Kannianen, thank you for the opportunity to introduce this bill that is now and will be critical to bringing value added projects to our energy development in North Dakota.**

January 24, 2023

Presentation to ND Legislative Session

Mr Chairman and Committee members,

Thank you very much for the opportunity to present at this hearing.

Standing back and looking at the world, we are in very unique times.

We, at Cerilon breathe and live our values every day which can be summarized in 4 pillars, Ownership, Leadership, Stewardship and Excellence.

This means that we will own the challenges, opportunities, and decisions on which we take action, step forward, and lead with vision and courage. We plan with intentionality, mindful that we are stewards of what has been entrusted to us very. This means that we steward the environment, the people, the resources, the experience, knowledge, the know-how we create for future generations. This is not something we take lightly. We continuously strive towards excellence in our actions, interactions and results.

Globally we see a focus on the environment, development constraints, carbon reduction. We accept those expectations and are doing our part to support and respond to these expectations. Over the past decade, we have seen movement from globalization to the need for having energy and product security and managing global supply chain challenges. The global pandemic has resulted in increased costs, and scarcity or challenges accessing critical skills in the workforce. We need to lead with a adaptive strategic plan.

Amidst it all we also see courage, beauty, people making a difference, young and old standing up for their families, communities, and their countries. This is not a time for mediocracy, but a time for focused effort to protect our future, to protect our environment, to protect our children. This is a time for leadership and action.

Both the energy and the agriculture industries are at a pivotal point. The decisions we are making today will direct our shared future in North Dakota for the next several decades. During downturns, recessions, and rapid growth, it is the people with strategic leadership that will have an edge to direct the future.

In North Dakota we want to achieve a few strategic objectives:

- 1) Enhance energy security and develop a downstream industry leading to a robust energy industry in the State that can withstand boom and bust cycles and add value in the State of ND. Protection of the current oil and gas production with improved local offtake of gas will be crucial in the next number of years with the rising opportunity for more oil production, downward pressure on flaring, and the increase in the Gas Oil Ratio (GOR) of legacy wells. The ability to move more gas and thus not have to curtail oil production is strategic.
- 2) We want to create a platform to establish integration between the energy and downstream

industries for a more robust energy sector in North Dakota. GTL, Ammonia and fertilizer developments, and other downstream chemical facilities are good examples of this.

- 3) We want to create new technology jobs for people in North Dakota and strengthen the communities across the state with relevant infrastructure and support.

The tax bill change is important because we want North Dakota to continue to be competitive compared with other jurisdictions. Tax is one of the levers that will positively influence a project business case. The State's investment package needs to include tax relief, positive investment environment, incentives, and debt support.

The objective of the proposed tax changes is really to extend existing tax incentives to new entrants in the downstream and chemical industry. Those existing incentives exempt tangible personal property used to construct a fertilizer or chemical processing facility in this state, and any component integral to the fertilizer or chemical processing plant from being subject to sales and use tax. The bill also provides for a new fund to assist local tax authorities with interim funding during initial periods of property tax exemptions also offered in any offered total tax incentive package. The Cerilon GTL project is one such processing facility that would be eligible for this proposed continued benefit.

And what does the State get in return? The Cerilon GTL project will provide the following key benefits:

- 1) Provide winter and summer diesel within North Dakota into sectors like mining, agriculture and oil fields all of which supports energy security and local demand. Our diesel contains virtually zero Sulphur and has additional environmental benefits with lower SOx, NOx and particulate emissions, while also fully biodegradable compared to conventional diesel.
- 2) Enables and supports Carbon Capture and Sequestration (CCS) creating the lowest carbon footprint GTL facility in the world. Our GTL is classified as a green transition energy and will lead GTL in North America soon. This means that we not only offer exceptional quality products like ULSD, Naphtha and Group III+ lubricant base-oils, but low carbon products.
- 3) Provides a large user of natural gas within the State, in the order of a ¼ bcf of natural gas per day for Plant number one. We are considering building a second, duplicate plant on our site a few years after the first plant startup which will mean an additional ¼ bcf per day.
- 4) Creates significant synergies and a platform for Ammonia production with the use of Nitrogen and Oxygen from our Air Separation Units. Because we generate Hydrogen as part of our process, both the GTL and Ammonia together with CCS will leave us the capability to produce blue GTL products and blue ammonia on site.
- 5) Our GTL facility will use very little water and be largely self-sustainable in power needs as we generate water in our process and also will have excess self-generated power on-site that could be added back to the grid.
- 6) Create well-paying, skilled jobs, and community development, a hub of expertise for future GTL projects wherever located.

These proposed tax changes support a strategic item in a portfolio of incentives that will be required for the downstream industry development, the agriculture integration, and will be positive enhancement in light of other jurisdictions.

We believe is the right decision at this time for ND.

Thank you very much Chairman and Committee members.

President and CEO  
Cerilon Inc.

**SB 2334 Hearing**

**March 7, 2023**

**House Finance and Tax Committee**

**Honorable Representative Headland, Chairman**

**Chairman Headland and Committee,**

**Thank you, Mr. Chairman. For the record I am Brad Bekkedahl, Senator from District 1, here to introduce SB 2334 which is a bill to remove a sunset on a current sales tax exemption for fertilizer and chemical processing facilities. The change to existing legislation is found on line 9 of page 1 and deletes the language requiring the exemption be applied before the date of June 30, 2023. The critical need for continuation of the sales tax exemption revolves around a large gas value added industry project. In the world of business recruitment, you will also hear testimony from the ND Department of Commerce, which has been critical in working with the company and their decision to site this large facility in our state. The competition was fierce to bring them here, and the removal of this sales tax exemption is a major factor in their location plans. I respectfully request the committee to recommend passage of the exemption sunset date removal.**

**The other area of the bill that is before you is found on page 2 and entails the creation of a local revenue loss reimbursement fund. In recruiting businesses of this size and investment, we have seen that local government entities frequently are called upon to provide incentives and assistance as well as state economic development programs. These could be in the form of property tax exemptions or PILOTS, infrastructure development or improvements such as roads, water, and sewer, along with the need to provide public safety equipment and personnel for protection. With this bill submission, I would encourage your discussion on the size of the mega project threshold, the type of project that could qualify for this local revenue loss reimbursement fund, as well as consideration of an Emergency Clause amendment so that the continuation of the exemption has no interruption before the bill becomes law if passed. I appreciate your attention and consideration.**

**Chairman Headland, thank you for the opportunity to introduce this bill that is now and will be critical to bringing value added projects to our development in North Dakota.**

PROPOSED AMENDMENT TO SENATE BILL NO. 2334

Page 1, line 3, remove "subsection 2 of"

Page 1, replace lines 7 through 14 with:

**"SECTION 1. AMENDMENT.** Section 57-30.2-04.15 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.2-04.15. Sales and use tax exemption for materials used to construct a fertilizer or chemical processing facility.**

1. Gross receipts from sales of tangible personal property used to construct or expand a fertilizer or chemical processing facility in this state, and any component integral to the fertilizer or chemical processing plant, are exempt from taxes under this chapter. To be exempt, the tangible personal property must be incorporated in the structure of the facility or used in the construction process to the point of having no residual economic value. The exemption provided in this section applies to all phases of construction under the permit or application for permit required by subsection 2. An integral component to the fertilizer or chemical processing plant:
  - a. May be owned directly or indirectly by the fertilizer or chemical processing facility, or by an unrelated third party;
  - b. Must be located at the facility site; and
  - c. Must be necessary for the plant's processing of fertilizer or chemicals.
2. ~~On or before June 30, 2023, the~~ The owner of the fertilizer or chemical processing plant must receive from the department of environmental quality an air quality permit or a notice that the air quality permit application is complete. The owner shall provide this documentation to the tax commissioner to qualify for the exemption under this section. Denial, expiration, or revocation of a permit terminates the exemption under this section.
3. To receive the exemption under this section at the time of purchase, the owner of the processing facility must receive from the tax commissioner a certificate that the tangible personal property used to construct the processing facility which the owner intends to purchase qualifies for exemption. If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.

January 24, 2023

Presentation to ND Legislative Session

Mr Chairman and Committee members,

Thank you very much for the opportunity to present at this hearing.

Standing back and looking at the world, we are in very unique times.

We, at Cerilon breathe and live our values every day which can be summarized in 4 pillars, Ownership, Leadership, Stewardship and Excellence.

This means that we will own the challenges, opportunities, and decisions on which we take action, step forward, and lead with vision and courage. We plan with intentionality, mindful that we are stewards of what has been entrusted to us very. This means that we steward the environment, the people, the resources, the experience, knowledge, the know-how we create for future generations. This is not something we take lightly. We continuously strive towards excellence in our actions, interactions and results.

Globally we see a focus on the environment, development constraints, carbon reduction. We accept those expectations and are doing our part to support and respond to these expectations. Over the past decade, we have seen movement from globalization to the need for having energy and product security and managing global supply chain challenges. The global pandemic has resulted in increased costs, and scarcity or challenges accessing critical skills in the workforce. We need to lead with a adaptive strategic plan.

Amidst it all we also see courage, beauty, people making a difference, young and old standing up for their families, communities, and their countries. This is not a time for mediocracy, but a time for focused effort to protect our future, to protect our environment, to protect our children. This is a time for leadership and action.

Both the energy and the agriculture industries are at a pivotal point. The decisions we are making today will direct our shared future in North Dakota for the next several decades. During downturns, recessions, and rapid growth, it is the people with strategic leadership that will have an edge to direct the future.

In North Dakota we want to achieve a few strategic objectives:

- 1) Enhance energy security and develop a downstream industry leading to a robust energy industry in the State that can withstand boom and bust cycles and add value in the State of ND. Protection of the current oil and gas production with improved local offtake of gas will be crucial in the next number of years with the rising opportunity for more oil production, downward pressure on flaring, and the increase in the Gas Oil Ratio (GOR) of legacy wells. The ability to move more gas and thus not have to curtail oil production is strategic.
- 2) We want to create a platform to establish integration between the energy and downstream

industries for a more robust energy sector in North Dakota. GTL, Ammonia and fertilizer developments, and other downstream chemical facilities are good examples of this.

- 3) We want to create new technology jobs for people in North Dakota and strengthen the communities across the state with relevant infrastructure and support.

The tax bill change is important because we want North Dakota to continue to be competitive compared with other jurisdictions. Tax is one of the levers that will positively influence a project business case. The State's investment package needs to include tax relief, positive investment environment, incentives, and debt support.

The objective of the proposed tax changes is really to extend existing tax incentives to new entrants in the downstream and chemical industry. Those existing incentives exempt tangible personal property used to construct a fertilizer or chemical processing facility in this state, and any component integral to the fertilizer or chemical processing plant from being subject to sales and use tax. The bill also provides for a new fund to assist local tax authorities with interim funding during initial periods of property tax exemptions also offered in any offered total tax incentive package. The Cerilon GTL project is one such processing facility that would be eligible for this proposed continued benefit.

And what does the State get in return? The Cerilon GTL project will provide the following key benefits:

- 1) Provide winter and summer diesel within North Dakota into sectors like mining, agriculture and oil fields all of which supports energy security and local demand. Our diesel contains virtually zero Sulphur and has additional environmental benefits with lower SO<sub>x</sub>, NO<sub>x</sub> and particulate emissions, while also fully biodegradable compared to conventional diesel.
- 2) Enables and supports Carbon Capture and Sequestration (CCS) creating the lowest carbon footprint GTL facility in the world. Our GTL is classified as a green transition energy and will lead GTL in North America soon. This means that we not only offer exceptional quality products like ULSD, Naphtha and Group III+ lubricant base-oils, but low carbon products.
- 3) Provides a large user of natural gas within the State, in the order of a ¼ bcf of natural gas per day for Plant number one. We are considering building a second, duplicate plant on our site a few years after the first plant startup which will mean an additional ¼ bcf per day.
- 4) Creates significant synergies and a platform for Ammonia production with the use of Nitrogen and Oxygen from our Air Separation Units. Because we generate Hydrogen as part of our process, both the GTL and Ammonia together with CCS will leave us the capability to produce blue GTL products and blue ammonia on site.
- 5) Our GTL facility will use very little water and be largely self-sustainable in power needs as we generate water in our process and also will have excess self-generated power on-site that could be added back to the grid.
- 6) Create well-paying, skilled jobs, and community development, a hub of expertise for future GTL projects wherever located.

These proposed tax changes support a strategic item in a portfolio of incentives that will be required for the downstream industry development, the agriculture integration, and will be positive enhancement in light of other jurisdictions.

We believe is the right decision at this time for ND.

Thank you very much Chairman and Committee members.

April 20, 2023

PROPOSED AMENDMENTS TO SENATE BILL NO. 2334

That the House recede from its amendments as printed on pages 968 and 969 of the Senate Journal and pages 1150 and 1151 of the House Journal and that Senate Bill No. 2334 be amended as follows:

Page 1, line 2, replace "local revenue loss reimbursement" with "large project development"

Page 1, line 5, remove "and"

Page 1, line 5, after "date" insert "; and to provide an expiration date"

Page 1, line 18, after "57-39.2-26.2" insert ", 57-39.2-26.3"

Page 2, line 1, replace "**Local revenue loss reimbursement**" with "**Large project development**"

Page 2, line 2, replace "local revenue loss reimbursement" with "large project development"

Page 2, line 7, replace the first "and" with an underscored comma

Page 2, line 7, after "57-39.2-26.2" insert ", and 57-39.2-26.3"

Page 2, line 9, replace "local revenue loss reimbursement" with "large project development"

Page 2, line 13, replace "The" with "After construction begins on the new infrastructure, the"

Page 2, line 14, replace the first "the" with "up to one billion dollars of"

Page 2, line 14, after the third "of" insert "the"

Page 2, line 17, after "development" insert ":

- b. The county, in which the new infrastructure is located, received at least thirty million dollars of oil and gas gross production tax revenue allocations under section 57-51-15 during the twelve-month period ended August 31, 2022, and has a hub city within the county"

Page 2, line 18, replace "b." with "c."

Page 2, line 18, replace "five hundred million" with "one billion"

Page 2, line 19, after "dollars" insert "and relates to a fertilizer plant"

Page 2, line 20, replace "c." with "d."

Page 2, line 20, after "is" insert "located"

Page 2, line 20, after "or" insert "within"

Page 2, line 20, after "limits" insert "of a city in the county"

Page 2, line 21, replace "d." with "e."

Page 2, line 28, after "**DATE**" insert "**- EXPIRATION DATE**"

Page 2, line 28, after "2023" insert ", remains effective through June 30, 2027, and after that date is ineffective"

Renumber accordingly

Sixty-eighth  
Legislative Assembly  
of North Dakota

**SENATE BILL NO. 2334**

Introduced by

Senators Bekkedahl, Sorvaag, Wanzek

Representatives Brandenburg, Kempenich

1 A BILL for an Act to create and enact a new section to chapter 57-39.2 of the North Dakota  
2 Century Code, relating to a ~~local revenue loss reimbursement~~ large project development fund; to  
3 amend and reenact subsection 2 of section 57-39.2-04.15 and section 57-39.2-26 of the North  
4 Dakota Century Code, relating to a sales tax exemption for a fertilizer plant; to provide a  
5 continuing appropriation; ~~and~~ to provide an effective date; and to provide an expiration date.

6 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

7 **SECTION 1. AMENDMENT.** Subsection 2 of section 57-39.2-04.15 of the North Dakota  
8 Century Code is amended and reenacted as follows:

9 2. ~~On or before June 30, 2023, the~~ The owner of the fertilizer or chemical processing  
10 plant must receive from the department of environmental quality an air quality permit  
11 or a notice that the air quality permit application is complete. The owner shall provide  
12 this documentation to the tax commissioner to qualify for the exemption under this  
13 section. Denial, expiration, or revocation of a permit terminates the exemption under  
14 this section.

15 **SECTION 2. AMENDMENT.** Section 57-39.2-26 of the North Dakota Century Code is  
16 amended and reenacted as follows:

17 **57-39.2-26. Allocation of revenue.**

18 Except as provided by sections 57-39.2-26.1 ~~and~~, 57-39.2-26.2, 57-39.2-26.3, and section 3  
19 of this Act, all moneys collected and received under this chapter must be paid into the state  
20 treasury and must be credited by the state treasurer to the general fund. Moneys deposited with  
21 the commissioner as security for the payment of tax, penalties, or costs due must be deposited  
22 and accounted for as provided in subsection 3 of section 57-39.2-12.

23 **SECTION 3.** A new section to chapter 57-39.2 of the North Dakota Century Code is created  
24 and enacted as follows:

1 Local revenue loss reimbursement Large project development fund - State treasurer -

2 Continuing appropriation.

3 1. There is created in the state treasury the ~~local revenue loss reimbursement~~ large  
4 project development fund. The fund consists of all moneys transferred to the fund  
5 under subsection 2. All moneys in the fund are appropriated to the state treasurer on a  
6 continuing basis for the purpose of providing distributions to an eligible county or city.

7 2. Notwithstanding any other provision of law, after the allocations under sections  
8 57-29.2-26.1 ~~and~~, 57-39.2-26.2, and 57-39.2-26.3, a portion of sales, gross receipts,  
9 and use, tax collections equal to the amount under subsection 3 must be deposited by  
10 the state treasurer in the ~~local revenue loss reimbursement~~ large project development  
11 fund as needed. The tax commissioner shall calculate the amount needed for  
12 distribution under subsection 3 and shall certify to the state treasurer the portion of  
13 sales, gross receipts, and use tax net revenues that must be deposited in the fund to  
14 provide for the distribution.

15 3. ~~The~~ After construction begins on the new infrastructure, the state treasurer shall  
16 distribute to a county or city an amount equal to one percent of ~~the~~ up to one billion  
17 dollars of estimated value of tangible property used in the construction of ~~the~~ new  
18 infrastructure if:

19 a. The county or city is levying a local sales tax for infrastructure, public safety, or  
20 economic development;

21 b. The county, in which the new infrastructure is located, received at least thirty  
22 million dollars of oil and gas gross production tax revenue allocations under  
23 section 57-51-15 during the twelve-month period ended August 31, 2022, and  
24 has a hub city within the county;

25 ~~b-c.~~ The estimated total cost for the new infrastructure is at least ~~five hundred-~~  
26 ~~million~~ one billion dollars and relates to a fertilizer plant;

27 ~~e-d.~~ The new infrastructure is located within the county or within the city limits of a city  
28 in the county; and

29 ~~d-e.~~ The new infrastructure is exempt from sales tax under this chapter or use tax  
30 under chapter 57-40.2.

- 1       4. If the new infrastructure is within city limits, only a city is eligible to receive a  
2       distribution under subsection 3.
- 3       5. The tax commissioner may request information and documentation from the owner of  
4       the new infrastructure to determine the estimated value of the tangible property and  
5       the estimated total cost of the new infrastructure for calculations under this section.

6       **SECTION 4. EFFECTIVE DATE - EXPIRATION DATE.** This Act becomes effective on  
7       July 1, 2023, remains effective through June 30, 2027, and after that date is ineffective.

23.0985.01004

Sixty-eighth  
Legislative Assembly  
of North Dakota

**SENATE BILL NO. 2334**

Introduced by

Senators Bekkedahl, Sorvaag, Wanzek

Representatives Brandenburg, Kempenich

1 A BILL for an Act to create and enact a new section to chapter 57-39.2 of the North Dakota  
2 Century Code, relating to a ~~local revenue loss reimbursement~~ large facility development fund; to  
3 amend and reenact subsection 2 of section 57-39.2-04.15 and section 57-39.2-26 of the North  
4 Dakota Century Code, relating to a sales tax exemption for a fertilizer plant; to provide a  
5 continuing appropriation; ~~and~~ to provide an effective date; and to provide an expiration date.

6 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

7 **SECTION 1. AMENDMENT.** Subsection 2 of section 57-39.2-04.15 of the North Dakota  
8 Century Code is amended and reenacted as follows:

9 2. ~~On or before June 30, 2023, the~~ The owner of the fertilizer or chemical processing  
10 plant must receive from the department of environmental quality an air quality permit  
11 or a notice that the air quality permit application is complete. The owner shall provide  
12 this documentation to the tax commissioner to qualify for the exemption under this  
13 section. Denial, expiration, or revocation of a permit terminates the exemption under  
14 this section.

15 **SECTION 2. AMENDMENT.** Section 57-39.2-26 of the North Dakota Century Code is  
16 amended and reenacted as follows:

17 **57-39.2-26. Allocation of revenue.**

18 Except as provided by sections 57-39.2-26.1 ~~and~~, 57-39.2-26.2, 57-39.2-26.3, and section 3  
19 of this Act, all moneys collected and received under this chapter must be paid into the state  
20 treasury and must be credited by the state treasurer to the general fund. Moneys deposited with  
21 the commissioner as security for the payment of tax, penalties, or costs due must be deposited  
22 and accounted for as provided in subsection 3 of section 57-39.2-12.

23 **SECTION 3.** A new section to chapter 57-39.2 of the North Dakota Century Code is created  
24 and enacted as follows:

~~Local revenue loss reimbursement~~ Large facility development fund - State treasurer -

**Continuing appropriation.**

1. There is created in the state treasury the ~~local revenue loss reimbursement~~ large facility development fund. The fund consists of all moneys transferred to the fund under subsection 2. All moneys in the fund are appropriated to the state treasurer on a continuing basis for the purpose of providing distributions to an eligible county or city.
2. Notwithstanding any other provision of law, after the allocations under sections ~~57-29.2-26.1 and 57-39.2-26.1~~, 57-39.2-26.2, and 57-39.2-26.3, a portion of sales, gross receipts, and use, tax collections equal to the amount under subsection 3 must be deposited by the state treasurer in the ~~local revenue loss reimbursement~~ large facility development fund as needed. The tax commissioner shall calculate the amount needed for distribution under subsection 3 and shall certify to the state treasurer the portion of sales, gross receipts, and use tax net revenues that must be deposited in the fund to provide for the distribution.
3. ~~The~~ Within thirty days after construction begins on the large facility, the state treasurer shall distribute to a county or city an amount equal to one percent of ~~the~~ up to two billion dollars of estimated value cost of tangible property eligible for a tax exemption under section 57-39.2-04.15 used in the construction of ~~new infrastructure~~ the large facility if:
  - a. The county or city is levying a local sales tax for infrastructure, public safety, or economic development; and
  - b. ~~The estimated total cost for the new infrastructure is at least five hundred million dollars;~~
  - c. ~~The new infrastructure is within the county or the city limits; and~~
  - d. ~~The new infrastructure is exempt from sales tax under this chapter or use tax under chapter 57-40.2~~ The county, in which the large facility is located, has a hub city and received at least thirty million dollars of oil and gas gross production tax revenue allocations under section 57-51-15 during the twelve-month period ended August 31, 2022.
4. To qualify for the distribution under subsection 3, the large facility must:

- 1 a. Be a new fertilizer or chemical processing plant that is eligible for a tax exemption  
2 under section 57-39.2-04.15;  
3 b. Begin construction after July 1, 2023; and  
4 c. Have an estimated total cost of at least one billion dollars.  
5 5. A county or city may receive only one distribution under subsection 3.  
6 6. If the ~~new infrastructure~~ large facility is within city limits, only a city is eligible to receive  
7 a distribution under subsection 3.  
8 ~~5.7.~~ The tax commissioner may request owner of the large facility shall provide information  
9 and documentation from the owner of the new infrastructure to the tax commissioner to  
10 determine the estimated value cost of the tangible property and the estimated total cost  
11 of the ~~new infrastructure~~ large facility for calculations under this section.

12 **SECTION 4. EFFECTIVE DATE.** This Act becomes effective on July 1, 2023.

13 **SECTION 5. EXPIRATION DATE.** Sections 2 and 3 of this Act are effective through  
14 June 30, 2027, and after that date are ineffective.
