

North Dakota Legislative Council

Prepared for the Water Drainage Committee
 LC# 23.9103.01000
 July 2021

SENATE BILL NO. 2208 (2021) AS INTRODUCED

Section	Action Taken	Notes Re: Actions Taken*	Description of Section and Action Taken	Statutes Citing the Section if Repealed
54-57-03(1)	Amend	Update reference	The reference to North Dakota Century Code Chapter 61-32 was changed to a reference to Chapter 61-16.1.	
61-02-01.4	Amend	Address snagging and clearing and regular maintenance	This section describes the State Water Commission's cost-share policy. Regular maintenance is not eligible for a cost-share. Currently, the section says snagging and clearing of watercourses is not regular maintenance. The bill would change the sentence to say "Changing the flow capacity of drains by widening or deepening channels" is not regular maintenance.	
61-05-02.1	Amend	Update reference	The references to Chapters 61-32 and 61-21 were removed.	
61-16-08	Amend subsection 3	Update language		
Chapter 61-16.1				
61-16.1-01	Repeal	Legislative intent statement	This section was a legislative intent statement, and such statements are no longer considered appropriate for the Century Code.	None
61-16.1-02	Amend	Harmonize procedures and requirements for assessment projects, including drains Remove contradictions and duplications in the Century Code	<ul style="list-style-type: none"> • Definition of assessment drain was simplified. • Definition of "cleaning out and repairing a drain" was incorporated from Section 61-21-01. • Definition of "drain" was incorporated from Section 61-21-01. • Definition of "maintenance" was added. • Definition of "practical drainage area" was added based on language in Section 61-21-01 and Section 61-16.1-02. • Definition of "project" was expanded to include drains so assessment project procedures and other provisions apply equally to drains.

Section	Action Taken	Notes Re: Actions Taken*	Description of Section and Action Taken	Statutes Citing the Section if Repealed
61-16.1-08	No change			
61-16.1-09	Amend subsection 16		Under current law, a water resource board may order an entity, or initiate legal action to compel an entity, responsible for maintaining or repairing a bridge or culvert to remove debris or material blocking water from flowing through the bridge or culvert. The amendment would allow the board only to notify the entity that action is needed on the bridge or culvert.	
61-16.1-09.1	Amend		The amendment provides all assessments for water projects under Chapter 16.1-09.1 are subject to the same requirements of the chapter.	
61-16.1-09.2	Amend	Incorporate part of Section 61-21-19	Language from Section 61-21-19 permitting county commissioners to release easements no longer needed for drainage was added.	
61-16.1-10	No change			
61-16.1-11	No change

61-16.1-15	Amend	Incorporate part of Section 61-21-10	Language from Section 61-21-10 providing for petitions for assessment drains was added.	
61-16.1-16	No change			
New Section	Create	Move Section 61-21-11 to Chapter 61-16.1	Section 61-21-11 was moved to a new section in Chapter 61-16.1.	
61-16.1-17	Amend	Incorporate part of Section 61-21-12	Language was added from Section 61-21-12 regarding the requirements for the engineer's report and the board's authority to relocate the lines of the drain.	
61-16.1-18	Amend	Incorporate part of Section 61-21-13	<p>The hearing must be at least 20 days after notice of the hearing was mailed.</p> <p>Notice must be accompanied by the board's resolution to proceed, a ballot form, instructions for voting, and notice of filing (below) with the county auditor.</p> <p>Notice is to be published.</p> <p>The list of benefits and assessments to result from the proposed assessment project must be filed with the county auditor for public inspect at least 10 days before the hearing.</p> <p>A record of hearing is to be made by the board.</p>

Section	Action Taken	Notes Re: Actions Taken*	Description of Section and Action Taken	Statutes Citing the Section if Repealed
New section	Create	This section is largely duplicative of Section 61-21-65		
New section	Create	This section is largely duplicative of Section 61-32-03		
New section	Create	This section is largely duplicative of Section 61-32-03.1, which applies to subsurface drains comprising 80 acres or more. This new section omits that requirement and sets a different threshold for permitting requirements.	The section governs the procedure and requirements for subsurface drainage system permit applications. Permits are required to drain subsurface water management systems with surface intakes if the system will have a drainage coefficient of 3/8 inch or less. If the system will have a drainage coefficient greater than 3/8 inch, the permit must be obtained under the new section replacing Section 61-32-03.
