

## NORTH DAKOTA STATE AGENCY "OFF-BUDGET" POSITIONS FOR THE 2003-05 BIENNIUM

Each biennium, as part of agency budget requests, each agency requests a specific number of full-time equivalent (FTE) positions and funding for the positions. The Governor recommends the number of FTE positions and related funding for each agency to the Legislative Assembly. The Legislative Assembly appropriates funding for each agency's FTE positions in the agency's appropriations bill for each biennium. The legislatively authorized FTE positions associated with the funding appropriated are not referenced in the appropriations bill but are identified in supporting legislative budget documents. During each biennium the Office of Management and Budget (OMB) monitors the number of employees included in agency payroll reports to the legislatively authorized FTE positions for each agency.

Select state agencies are not included in the appropriations process; therefore, those agencies do not have legislative limits on the number of employees that may be hired. These agencies include the agriculture commodity groups and the State Fair Association. Higher education institutions receive a block grant appropriation of their general fund dollars and identify FTE positions related to the general fund appropriation. The institutions receive other funds such as tuition income, federal funds, and local funds, which are used to hire employees, but these funds are not specifically appropriated nor are the employees included as legislatively authorized FTE positions. These types of employees are considered "off-budget."

An "off-budget" position is defined for this memorandum as an employee that is either not filling a legislatively approved FTE position or one for which the funding for the position was not included in the agency's appropriations bill approved by the Legislative Assembly. Agencies hire these positions pursuant to other authority granted to the agency either in statute or the Session Laws. The schedule below lists, for agencies included in the appropriations process, employees considered "off-budget."
