BACKGROUND - 1997 SESSION

In 1997 the Legislative Assembly contracted with a secretarial service to type correspondence and envelopes, news releases, and other miscellaneous documents, e.g., written testimony presented by legislators to committees. Secretarial service employees were assigned work without regard to the political affiliation of the requester. For example, no employee was assigned to do work solely for the majority party or solely for the minority party.

During the 1997 session, the secretarial service produced 3,463 documents, which included 1,406 letters, 245 floor speeches, 267 news releases, 83 transcriptions of dictated tapes, 50 charts and lists, and 124 miscellaneous documents (labels, etc.). During the 1997 session, the secretarial service also transcribed 40 tapes of minutes of a standing committee whose clerk quit, and this additional transcription service was completed during regular working hours. During the 1997 session, the secretarial service contractor provided seven employees and one supervisor for a total amount of \$41,462.50.
