EXECUTIVE SUMMARY

GENERAL FUND BUDGET SUMMARY

	2011-13 Biennium Legislative-Approved Budget (2011 Regular Session)	2011-13 Biennium Legislative-Approved Budget (2011 Special Session)	Increase (Decrease)
Beginning balance - July 1, 2011	\$660,231,525	\$996,832,711	\$336,601,186 ¹
2011-13 estimated revenues	3,457,746,225	3,457,746,225	0
2011-13 special session revenue changes	0	(11,000,000) ²	(11,000,000) ²
Total available	\$4,117,977,750	\$4,443,578,936	\$325,601,186
2011-13 original appropriations	\$4,066,853,792	\$4,066,853,792	\$0
2011-13 special session appropriations	0	169,832,668 ³	169,832,668 ³
Total 2011-13 appropriations	\$4,066,853,792	\$4,236,686,460	\$169,832,668
Estimated ending balance - June 30, 2013	\$51,123,958	\$206,892,476 ⁴	\$155,768,518

¹The actual July 1, 2011, general fund balance increase of \$336.6 million relates to additional 2009-11 general fund revenue primarily from sales tax, individual income tax, and corporate income tax; additional funding from the transfer from the permanent oil tax trust fund; additional 2009-11 general fund turnback; and other adjustments.

²Sections 3 and 4 of Senate Bill No. 2371 increase the tax credit available to financial institutions, corporations, and individuals for contributions to housing incentive funds from 20 percent per taxable year to 100 percent and to increase the maximum allowable credits from \$4 million per biennium to \$15 million for the 2011-13 biennium only. This results in an estimated general fund revenue reduction of \$11 million for the 2011-13 biennium.

³See footnote in the **Total Appropriations Summary** section below for more information.

⁴The estimated general fund ending balance does not reflect any potential transfers at the end of the 2011-13 biennium from the general fund to the budget stabilization fund pursuant to North Dakota Century Code Chapter 54-27.2.

² This amount is the actual July 1, 2011, general fund balance.

³ Senate Bill No. 2012 (2009) provided for 25 percent of motor vehicle excise taxes to be deposited in the highway fund rather than the general fund for the 2009-11 biennium. This bill reduced general fund motor vehicle excise tax collections by \$41.5 million for the 2009-11 biennium.

⁴ The amount shown for the 2009-11 biennium reflects a revenue reduction of \$90 million relating to income tax relief. The amount shown for the 2011-13 biennium reflects a revenue reduction of an additional \$120 million relating to income tax rate reductions of 17.9 percent as provided for in House Bill No. 1047 (2011).

⁵ The amount shown for the 2009-11 biennium reflects a revenue reduction of \$10 million relating to income tax relief. The amount shown for the 2011-13 biennium reflects a revenue reduction of an additional \$25 million relating to income tax rate reductions of 19.5 percent as provided for in House Bill No. 1047 (2011).

⁶ This amount reflects a revenue reduction of \$5 million relating to tax credits for contributions to a housing incentive fund. Senate Bill No. 2210 (2011) allows taxpayers to claim up to 20 percent of the credit during a tax year and limits the aggregate amount of tax credits for all contributions to \$4 million. Senate Bill No. 2371 (2011) increases the tax credit to 100 percent during tax years 2011 and 2012 and increases the aggregate amount for all contributors from \$4 million to \$15 million for these years only. The tax types affected include individual and corporate income taxes and business privilege tax. Senate Bill No. 2371 resulted in a reduction of \$11 million of general fund revenues for the 2011-13 biennium, \$3,666,667 for each individual income, corporate income, and business privilege tax type.

⁷ From 1999 through 2003, North Dakota Century Code Section 57-51.1-07.2 provided that if, at the end of any biennium, oil and gas gross production and extraction tax collections during the biennium exceed \$62 million, the excess amount must be transferred from the general fund to the permanent oil tax trust fund. Interest on money in the fund is transferred to the general fund. Section 26 of Senate Bill No. 2015 (2003) amended Section 57-51.1-07.2 so that all revenues deposited in the general fund during a biennium that are derived from the oil and gas gross production tax which exceed \$71 million are to be transferred into the permanent oil tax trust fund, instead of the prior \$62 million limit. In August 2003, \$11.91 million was transferred from the permanent oil tax trust fund to the general fund, pursuant to Section 6 of Senate Bill No. 2015.

Total oil and gas tax collections were \$120.5 million during the 2003-05 biennium, resulting in \$49.5 million being transferred to the permanent oil tax trust fund at the end of that biennium. The July 1, 2005, balance in the permanent oil tax trust fund was \$50.4 million.

Total oil and gas tax collections were \$240.8 million during the 2005-07 biennium, resulting in \$169.8 million being transferred to the permanent oil tax trust fund at the end of that biennium. The July 1, 2007, balance in the permanent oil tax trust fund was \$143.3 million.

Total oil and gas tax collections were \$555.3 million during the 2007-09 biennium, resulting in \$484.3 million being transferred to the permanent oil tax trust fund at the end of that biennium. The July 1, 2009, balance in the permanent oil tax trust fund was \$489.7 million.

Total oil and gas tax collections were \$1,052.5 million for the 2009-11 biennium, resulting in \$981.5 million being transferred to the permanent oil tax trust fund. The Legislative Assembly in 2009 authorized transfers from the permanent oil tax trust fund for funding centers of excellence (\$6,620,541), higher education capital projects and programs (\$13,616,145), transfer to the property tax relief sustainability fund (\$295,000,000), water project grants (\$2,526,445), grants to tribal colleges (\$700,000), funding for Prairie Public Broadcasting (\$1,008,100), and for a transfer to the general fund of \$435,000,000, of which \$295,000,000 is for property tax relief. The June 30, 2011, balance in the permanent oil tax trust fund was \$689.9 million. The Legislative Assembly in 2011 repealed the permanent oil tax trust fund and provided for a transfer of the balance in the fund to the general fund at the end of the 2009-11 biennium.

⁸ The Legislative Assembly in 2011 created a new section to Chapter 57-51.1 to provide for the allocation of the state's share of oil and gas tax revenues designated for deposit in the general fund under Chapters 57-51 and 57-51.1 as follows:

The first \$200 million is deposited in the general fund;

The next \$341,790,000 is deposited in the property tax relief sustainability fund;

The next \$100 million is deposited in the general fund;

The next \$100 million is deposited in the strategic investment and improvements fund;

The next \$22 million is deposited in the state disaster relief fund; and

Any additional revenues are deposited in the strategic investment and improvements fund.

Total oil and gas tax collections are estimated to be \$774 million for the 2011-13 biennium. House Bill No. 1013 (2011) increases the allocation of oil and gas gross production taxes to the oil and gas impact grant fund from \$8 million to \$100 million, reducing the state's share of oil and gas gross production tax collections by \$92 million, from \$774 million to \$682 million. Of the \$682 million, \$4 million is to be deposited in the oil and gas research fund, \$300 million in the general fund, \$341,790,000 in the property tax relief sustainability fund, and \$36,210,000 in the strategic investment and improvements fund.

⁹ The Legislative Assembly removed the \$60 million transfer from the Bank of North Dakota for the general fund included in the executive budget.

¹⁰ The Legislative Assembly in 2009 repealed the \$5 million transfer from the Mill and Elevator for the 2007-09 biennium and provided for future transfers from the Mill and Elevator based on a percentage of mill profits. The amount shown for the 2011-13 biennium is the estimated transfer based on projected Mill and Elevator profits for the 2011-13 biennium.

¹¹ The Legislative Assembly in 2011 repealed the permanent oil tax trust fund and provided for a transfer of the balance in the fund to the general fund at the end of the 2009-11 biennium. Therefore, transfers from the permanent oil tax trust fund increased from \$435 million as provided for by the Legislative Assembly in 2009 to \$1,124.9 million due to action by the Legislative Assembly in 2011 to repeal the permanent oil tax trust fund at the end of the 2009-11 biennium in House Bill No. 1451 (2011).

APPROPRIATIONS SUMMARY

The Legislative Assembly in 2011 provided general fund appropriations of \$4,236,686,460, \$940,090,811, or 28.5 percent, more than the 2009-11 legislative appropriations. Of the \$4,236,686,460, \$3,534,591,025 is considered ongoing general fund appropriations and \$702,095,435 is considered one-time general fund appropriations. Ongoing spending increased by 18.6 percent. Additional information regarding one-time general fund appropriations is provided in the one-time funding schedule included in this section.

The Legislative Assembly in 2011 provided special fund appropriations of \$6,362,287,420, \$719,945,036, or 12.8 percent, more than the 2009-11 legislative appropriations.

The following is a summary of legislative appropriations for the 2001-03 through 2011-13 bienniums:

Biennium	General Fund Appropriations	Special Fund Appropriations	Total Appropriations
2001-03	\$1,728,640,384	\$3,049,996,983	\$4,778,637,367
2003-05	\$1,816,885,505	\$3,289,715,994	\$5,106,601,499
2005-07	\$2,000,537,074	\$3,785,221,167	\$5,785,758,241
2007-09	\$2,574,313,275	\$4,049,667,487	\$6,623,980,762
2009-11	\$3,296,595,649	\$5,642,342,384	\$8,938,938,033
2011-13	\$4,236,686,460	\$6,362,287,420	\$10,598,973,880

NOTE: Appropriation amounts are restated to reflect, where appropriate, deficiency appropriations provided by a subsequent Legislative Assembly, additional appropriations made during special legislative sessions, or budget allotments ordered by the Governor.

HIGHER EDUCATION - OVERVIEW

The Legislative Assembly in 2011 made the following higher education funding changes compared to 2009-11 legislative appropriations for higher education:

- Increased **general fund** support by \$64,430,747 as follows:

	2009-11 Legislative Appropriations	2011-13 Legislative Appropriations	Increase (Decrease)	
Ongoing general fund appropriations	\$534,062,895	\$606,525,437	\$72,462,542	13.6%
One-time general fund appropriations	59,292,152	51,260,357	(8,031,795)	(13.5%)
Total	\$593,355,047	\$657,785,794	\$64,430,747	10.9%

- Decreased support from **special funds** by \$93,946,605, or 46.3 percent. Special funds support relates primarily to major capital projects funded from local sources or through the issuance of revenue bonds.
- Adjusted the authorized number of **FTE positions** from 2,131.42 to 2,245.51 to reflect the number of FTE positions supported by the general fund.

2011-13	\$657,785,794	\$108,817,759	\$766,603,553

Major items include:

- One-time general fund appropriations** - Provided funding of \$51,260,357 from the general fund for the following one-time funding items:

Major capital projects	\$47,136,000
Williston State College operations	2,000,000
Dickinson State University operating funds	900,000
Mayville State University campus drainage study	55,000
Development of space utilization plan at the University of North Dakota School of Medicine and Health Sciences	100,000
Special assessment payments	819,357
Forest Service emerald ash borer program	250,000
Total	\$51,260,357
- Campus parity** - Provided \$32.6 million from the general fund for campus parity to continue the fiscal year 2011 legislatively authorized salary increases, 3 percent per year salary increases for the 2011-13 biennium, health insurance increases, and estimated utility cost increases.
- Employee retirement contributions** - Provided funding of \$2,426,499 from the general fund for increased retirement contributions for North Dakota University System employees. The funding will be used to increase the state contribution to employee retirement programs by 1 percent on January 1, 2012, and by 1 percent on January 1, 2013.
- Campus equity and tuition affordability pool** - Provided \$15,240,565 from the general fund for campus equity and student affordability distributions as determined by the State Board of Higher Education.
- Student financial assistance program** - Provided funding of \$19,374,022, of which \$19,025,594 is from the general fund and \$348,428 is from federal funds, for the student financial assistance grant program. This is the same amount of funding as provided for the 2009-11 biennium.
- Career and technical education and academic scholarships** - Provided \$10 million from the general fund to continue the career and technical education and academic scholarship program. This represents an increase of \$7 million from the 2009-11 biennium appropriation of \$3 million for the program.

7. **Professional student exchange program** - Provided funding of \$3,321,438, of which \$2,856,131 is from the general fund and \$465,307 is from the student loan trust fund, for the professional student exchange program. The funding includes a \$510,000 increase from the general fund to replace reduced funding available from the student loan trust fund. This level represents a total funds decrease of \$15,662 from the 2009-11 legislative appropriation of \$3,337,100.
8. **Scholars program** - Provided \$2,113,584 from the general fund for the scholars program. This is the same level of funding as provided during the 2009-11 biennium.

Flood-Impacted Political Subdivision Infrastructure Development Grants

The Legislative Assembly provided a \$30 million one-time general fund appropriation to the Land Department for providing infrastructure development grants to flood-impacted political subdivisions. The Energy Infrastructure and Impact Office director is to develop a plan for providing infrastructure grants to eligible political subdivisions, receive and review applications for infrastructure grants, and make recommendations to the Board of University and School Lands on grants to eligible political subdivisions. The Board of University and School Lands is to award and distribute infrastructure grants to eligible political subdivisions based on identified needs. Eligible political subdivisions include counties, as well as cities, school districts, and other political subdivisions located within such counties, that have received an individual assistance designation by the Federal Emergency Management Agency relating to a 2011 flood event. Individual assistance designated counties include Barnes, Benson, Burleigh, McHenry, Morton, Ramsey, Renville, Richland, and Ward. Funding received by eligible political subdivisions may be used for up to 50 percent of the costs not otherwise reimbursed through federal or other state funds to:

- Develop new community infrastructure, the need for which is directly related to the displacement of residents due to flooding. Infrastructure includes community-owned waterlines, sewer, curb, and gutter.
- Evaluate the extent of damage to community-owned infrastructure.
- Restore or repair flood-related damage to community-owned infrastructure.
- Expand landfill capacity or reimburse flood-related waste disposal costs.
- Raise roads or develop flood control structures.
- Acquire property needed for infrastructure.
- Acquire homes damaged by levy construction.
- Provide reimbursement for other flood-related expenses.

Transfers

Section 7 of Senate Bill No. 2371 provides for a transfer of \$30 million from the current and undivided profits of the Bank to the rebuilders loan program fund (see **Rebuilders Loan Program** section below).

The following schedule shows an analysis of the Bank's estimated capital structure for the 2011-13 biennium:

June 30, 2011, estimated capital level	\$359,660,000
Estimated 2011-13 biennium profits	145,500,000 ¹
2011-13 biennium transfers to health information technology-related funds per Sections 8 and 9 of Senate Bill No. 2332	(13,000,000) ²
2011-13 biennium transfers to rebuilders loan program fund per Section 7 of Senate Bill No. 2371	(30,000,000)
Estimated capital on June 30, 2013	\$462,160,000
¹ Actual calendar year 2010 profits were \$61.9 million.	
² House Bill No. 1021 provides for a transfer of \$5 million from the Bank profits to the health information technology planning loan fund or to the health information technology loan fund and amends Section 8 of Chapter 519 of the 2009 Session Laws to extend the \$8 million transfer provided for the 2009-11 biennium into the 2011-13 biennium.	

Rebuilders Loan Program

Section 1 of Senate Bill No. 2371 establishes a rebuilders loan program and loan fund at the Bank. The program is to provide loans to North Dakota residents affected by a presidentially declared disaster in the state in an area eligible for Federal Emergency Management Agency individual assistance for the purpose of the resident rebuilding the resident's flood-damaged home or purchasing a new home in the disaster-impacted community. Individual assistance designated counties include Barnes, Benson, Burleigh, McHenry, Morton, Ramsey, Renville, Richland, and Ward.

A loan may be made from the fund only to an individual residing in the state whose home was granted a reduction in 2011 in true and full valuation from the individual's property's pre-flood value by an assessment reduction pursuant to the Governor's Executive Order 2011-22 or by an abatement for flood-damaged property granted by the board of county commissioners.

An initial loan made to an individual is limited to the lesser of \$30,000 or actual documented damage not paid by flood insurance. The balance of the loan and any unpaid interest must be paid upon closing if the property is sold. If federal funds are made available for this program, an additional amount may be borrowed as determined by the Bank. A loan from the fund must have the interest rate fixed at 1 percent for a period of no more than 20 years. Principal and interest payments are deferred for the first 24 months of the loan.

Section 7 of Senate Bill No. 2371 provides for a transfer of \$30 million from the current and undivided profits of the Bank to the rebuilders loan program fund. Section 8 of Senate Bill No. 2371 provides for a contingent transfer of \$20 million from the general fund to the rebuilders loan program fund if the \$30 million transferred to the rebuilders loan program fund from the Bank is fully obligated prior to June 30, 2013.

Section 9 of Senate Bill No. 2371 appropriates \$10 million from the state disaster relief fund to the Adjutant General for providing:

- Additional rebuilders loan program funding to the Bank.
- Funding to political subdivisions for flood-impacted housing rehabilitation. Funding must be used as deemed most effective in that community to assist homeowners in rehabilitation or replacement of their flood-damaged homes and to retain homeowners in the community.

Other Sections in Senate Bill No. 2371

Section 5 amends Section 4 of Chapter 12 of the 2011 Session Laws to increase the amount of funding that the Department of Transportation may borrow from the Bank during the 2011-13 biennium for emergency relief projects. The 62nd Legislative Assembly previously authorized the Department of Transportation to borrow up to \$120 million for emergency relief projects during the 2011-13 biennium. This section increases the amount of borrowing authority to \$200 million.

Section 22 provides that the Bank utilize the flex partnership in assisting community expansion program to assist in financing of affordable multifamily housing units for individuals in areas of North Dakota affected by oil and gas production and distribution.

Floodway Property Acquisition and Construction Funding

Section 18 of Senate Bill No. 2371 provides the State Water Commission in its future plans place a high priority on providing funding for floodway property acquisitions and construction. The funding must be used to supplement federal hazard mitigation grant funds or other federal funds for acquiring property and for the construction of flood control projects in qualifying political subdivisions, including necessary funding for any state or local match requirements. Qualifying political subdivisions are cities or counties that are eligible for Federal Emergency Management Agency (FEMA) hazard mitigation grant funding or other comparable federal programs for flood mitigation and have received, or are located within counties that have received, an individual assistance designation by FEMA as a result of a flood event occurring during 2011.

SUMMARY OF LEGISLATIVE CHANGES DURING THE NOVEMBER 2011 SPECIAL LEGISLATIVE SESSION

	FTE Positions	General Fund	Other Funds	Total
The legislative action:				
Increased the amount of funding that the department may borrow from the Bank of North Dakota during the 2011-13 biennium for emergency relief projects to \$200 million. The 62 nd Legislative Assembly previously authorized the department to borrow \$120 million for emergency relief projects during the 2011-13 biennium.			\$80,000,000	\$80,000,000
Added funding from the state disaster relief fund to allow the department to provide grants to eligible counties for road grade raising projects on federal aid-eligible roads.			6,000,000	6,000,000

Amended a section of the 2011 Session Laws relating to the county and township road reconstruction program in areas affected by oil and gas development to increase the percentage of state funding that may be used for unpaved roadway projects from 25 percent to 90 percent. The amendment is retroactive to July 1, 2011.

¹ In the November 2011 special session, the Legislative Assembly increased total FTE positions authorized for the 2011-13 biennium by 26 FTE positions from 11,234.67 to 11,260.67. The following is a summary of the 26 additional FTE positions:

	2011-13 Regular Session Authorization	2011-13 Special Session Authorization	Increase	
112 - Information Technology Department	326.30	336.30	10.00	House Bill No. 1475 (2011) authorized 10 additional FTE positions related to the Department of Human Services' eligibility system replacement project. The positions are only authorized until the development and implementation of the system are completed.
325 - Department of Human Services	2,189.35	2,197.35	8.00	House Bill No. 1475 (2011) authorized 1 additional FTE position related to the eligibility system replacement project and 7 additional FTE positions related to implementation of the federal Affordable Care Act.
401 - Insurance Department	45.50	49.50	4.00	House Bill No. 1475 (2011) authorized 4 additional FTE positions related to implementation of the federal Affordable Care Act.
504 - Highway Patrol	194.00	198.00	4.00	Senate Bill No. 2371 (2011) authorized 4 additional FTE trooper positions.

² House Bill No. 1269 (2011) appropriates \$585,859 of funding from the federal NICS Improvement Act to the Attorney General for 1.5 FTE positions to administer the provisions of the Act. The FTE positions must be terminated when grant funding is no longer available.

³ The 2009-11 FTE positions for the Industrial Commission do not include 2 FTE positions that the agency hired, subject to Emergency Commission approval during the 2009-11 biennium, that were funded with funding from the lands and minerals trust fund due to the average drilling rig count exceeding 100 active rigs. The Industrial Commission received funding from the general fund for those positions for the 2011-13 biennium.

⁴ The 2009-11 FTE positions for the Agriculture Commissioner include 1 FTE meat inspection position that the agency was authorized to hire subject to Emergency Commission approval. The department has not filled the position, but the position is included in the department's 2011-13 biennium budget as an existing position.

⁵ The FTE positions listed for the following entities under the control of the State Board of Higher Education were adjusted in accordance with Section 8 of Senate Bill No. 2020 (2009):

	2009-11 Legislative Authorization	Adjusted FTE Level	Variance

¹Reflects a phaseout of FTE positions at San Haven (258.47 FTE positions reduction) and a reduction of 46 FTE positions at the Grafton State School.

²Excludes 14.1 authorized FTE positions for commodity groups because 1993 House Bill No. 1203 provided statutory continuing appropriations for these agencies to spend funds they collect without a specific legislative appropriation.

³The state colleges and universities changed the formula for counting FTE teacher positions based on the number of months worked during the year. Those who worked 12 months were reduced from 1.2 FTE positions to 1 FTE position, and those who worked 9 months were reduced from 1 FTE position to .75 FTE position. The net reduction from the change is 415.85 FTE positions. In addition, the University of North Dakota Rehabilitation Hospital was privatized resulting in a reduction of 286.2 FTE positions.

⁴Job Service North Dakota and its 420.5 FTE positions were switched from **Regulatory** to **Health and Welfare**.

⁵The judicial branch added 129.5 FTE positions with the clerk of court unification.

⁶Reflects elimination of 203.3 FTE positions associated with local funds at the University of North Dakota School of Medicine and Health Sciences.

⁷Reflects an increase of 31 FTE positions in **General Government** and a corresponding reduction in **Public Safety** due to State Radio being consolidated with the Office of Management and Budget.

⁸The FTE count for higher education was reduced by 688.17 FTE positions to reflect institutional reductions and to report only the number of FTE positions funded from the general fund.

⁹House Bill No. 1505 (2003) provided that on November 1, 2003, 24 FTE positions relating to information services, including electronic mail, file and print server administration, database administration, storage, application server, and hosting services, must be reduced and transferred to the Information Technology Department. The project executive committee recommended the transfer of 8.5 FTE positions to the Information Technology Department on November 1, 2003, and the exemption of the remaining 15.5 FTE positions. The 2003-05 FTE positions reflect the transfer of 8.5 FTE positions.

¹⁰In the November 2011 special legislative session, the Legislative Assembly increased total FTE positions authorized for the 2011-13 biennium by 26 FTE positions from 11,234.67 to 11,260.67. Of the 26 FTE positions:

- Ten FTE positions are for the Information Technology Department relating to the Department of Human Services eligibility system replacement project.
- Eight FTE positions are for the Department of Human Services, including 1 FTE position for the eligibility system replacement project and 7 FTE positions relating to implementation of the federal Affordable Care Act.
- Four FTE positions are for the Insurance Commissioner relating to implementation of the federal Affordable Care Act.
- Four FTE positions are for trooper positions for the Highway Patrol.

¹North Dakota Century Code Chapter 54-27.2, as amended by the Legislative Assembly in 2011 House Bill No. 1451, provides that any amount in the general fund at the end of a biennium in excess of \$65 million must be transferred to the budget stabilization fund except that, beginning July 1, 2011, the balance in the budget stabilization fund may not exceed 9.5 percent of the general fund budget approved by the most recently adjourned Legislative Assembly. At the end of the 2009-11 biennium, the Office of Management and Budget transferred \$61,414,562 from the general fund to the budget stabilization fund pursuant to Chapter 54-27.2. This amount was based on 2011-13 biennium general fund appropriations of \$4,066,853,792 as approved by the Legislative Assembly during its 2011 regular legislative session resulting in a maximum balance allowed in the fund of \$386,351,110.

²Interest earned on the fund is deposited in the general fund because the balance in the fund is at the maximum allowed under Section 54-27.2-01.

³Due to the increase in general fund appropriations for the 2011-13 biennium approved by the Legislative Assembly during its November 2011 special session, the maximum balance allowed in the budget stabilization fund is now based on 2011-13 biennium general fund appropriations of \$4,236,686,460 resulting in a maximum balance allowed in the fund of \$402,485,214. Therefore, interest earned by the fund will be retained in the fund until the maximum balance is reached. Based on the fund's most recent three-year average return rate, interest earnings for the remainder of the 2011-13 biennium are estimated to be \$12.5 million.

⁴No transfers from the budget stabilization fund are anticipated.

FUND HISTORY

The budget stabilization fund was established by the Legislative Assembly in 1987 House Bill No. 1596. Major provisions include:

- Section 54-27.2-01 establishes the budget stabilization fund and provides that any interest earned on the balance of the budget stabilization fund must be retained in the fund. The section provides that any money in the fund in excess of 9.5 percent of the general fund budget as approved by the most recently adjourned Legislative Assembly must be deposited in the state general fund. The Legislative Assembly approved 2011 House Bill No. 1451 which decreased, effective July 1, 2011, the maximum balance allowed in the fund from 10 percent to 9.5 percent of the general fund budget approved by the most recently adjourned Legislative Assembly.
- Section 54-27.2-02 provides that any amount in the state general fund at the end of a biennium in excess of \$65 million must be transferred to the budget stabilization fund.
- Section 54-27.2-03 provides that the Governor may order a transfer from the budget stabilization fund to the general fund if the director of the Office of Management and Budget projects that general fund revenues for the biennium will be at least 2.5 percent less than estimated by the most recently adjourned Legislative Assembly. The amount transferred is limited to the difference between an amount 2.5 percent less than the original legislative general fund revenue forecast and the revised forecast prepared by the Office of Management and Budget. Any transfer made must be reported to the Budget Section.

¹Estimated revenues - 2011-13 biennium - The estimated revenues for the 2011-13 biennium reflect actual revenues through October 2011 and estimated revenues for the remainder of the biennium based on the February 2011 revenue forecast.

²Sections 1 and 5 of House Bill No. 1020 (2009) appropriated \$188.4 million, or any additional amounts that become available, from the resources trust fund for defraying the expenses of the State Water Commission for the 2009-11 biennium. In addition, Senate Bill No. 2305 (2009) appropriated \$342,000 from the resources trust fund to the State Water Commission for conducting a Beaver Bay embankment feasibility study. The amounts shown are the actual expenditures relating to these appropriations.

³Sections 1 and 4 of Senate Bill No. 2020 (2011) appropriate \$332.4 million, or any additional amount that becomes available, from the resources trust fund for the purpose of defraying the expenses of the State Water Commission for the 2011-13 biennium. The Legislative Assembly added 1 FTE Water Development Division director position funded from the resources trust fund (\$231,899) and appropriated an additional \$500,000 from the resources trust fund for a remote metering device reimbursement program. The sections relating to the remote metering of water permits were vetoed by Governor Jack Dalrymple. The Legislative Assembly required that the State Water Commission receive Budget Section approval prior to the expenditure of any funds in excess of funding appropriated to the commission for water and atmospheric resources. In addition, the Legislative Assembly in 2011 provided in House Bill No. 1206 the State Water Commission make available, from funding appropriated from the resources trust fund for projects, \$25 million for a zero interest loan to the Western Area Water Supply Authority. House Bill No. 1206 also appropriated \$10 million from the resources trust fund to the Bank of North Dakota for a 5 percent loan to the Western Area Water Supply Authority.

⁴The Legislative Assembly, during its special legislative session in November 2011, appropriated \$50 million from the resources trust fund to defray the expenses of the commission, subject to Budget Section approval as provided in Section 4 of Senate Bill No. 2020 relating to the appropriation of additional income in the resources trust fund and the water development trust fund. At this time, revenue estimates are sufficient to provide for \$18,154,903 of the \$50 million appropriation.

FUND HISTORY

The resources trust fund was created pursuant to passage of measure No. 6 in the November 1980 general election. Measure No. 6 created a 6.5 percent oil extraction tax, 10 percent of which was to be allocated to the resources trust fund. In June 1990 the Constitution of North Dakota was amended to establish the resources trust fund as a constitutional trust fund and provide that the principal and income of the fund could be spent only upon legislative appropriations for:

- Constructing water-related projects, including rural water systems.
- Energy conservation programs.

In November 1994 the voters of North Dakota approved a constitutional amendment, which is now Article X, Section 24, of the Constitution of North Dakota, to provide that 20 percent of oil extraction taxes be allocated as follows:

- Fifty percent (of the 20 percent) to the common schools trust fund.
- Fifty percent (of the 20 percent) to the foundation aid stabilization fund.

North Dakota Century Code Section 57-51.1-07, as amended by Senate Bill No. 2129 (2011), provides that oil extraction tax revenues be distributed as follows:

- Twenty percent to the resources trust fund.
- Twenty percent allocated as provided in Article X, Section 24, of the Constitution of North Dakota.
- Thirty percent to the legacy fund.
- Thirty percent to be allocated to the state's general fund, with certain funds designated for deposit in the property tax relief sustainability fund, the strategic investment and improvements fund, and the state disaster relief fund as provided in House Bill No. 1451 (2011).

NOTE: The amounts shown on this schedule reflect updated expenditure estimates by disaster provided by the Adjutant General as of October 2011.

¹Section 5 of 2009 Senate Bill No. 2012 provided that the Office of Management and Budget (OMB) transfer \$43 million from the general fund to the state disaster relief fund during the 2007-09 biennium.

²Senate Bill No. 2369 (2011) provides for a \$22 million transfer from the permanent oil tax trust fund to the state disaster relief fund and authorizes the Adjutant General to use this funding for costs associated with state disasters and flood mitigation efforts.

³Section 17 of 2011 Senate Bill No. 2371 provides that OMB transfer \$48.7 million from the general fund to the state disaster relief fund during the 2011-13 biennium for the following purposes:

Relief Assistance	Transfer Amount	Appropriation Authority
Disaster-related expenses	\$32,700,000	Section 15 of Senate Bill No. 2371 provides appropriation authority of \$29.5 million from the state disaster relief fund to the Adjutant General for providing the required state share of funding for expenses associated with presidentially declared state disasters. Section 16 of Senate Bill No. 2371 provides a contingent appropriation of \$5 million from the state disaster relief fund to the Adjutant General relating to grants to political subdivisions for a portion of the local share required to match federal emergency relief funding. The funding is contingent upon a 2012 disaster event exceeding \$50 million in damages across the state. The transfer amount provided is currently anticipated to be \$617,137 less than the amount needed to provide the \$5 million in funding for possible 2012 disaster expenses.
Flood-impacted housing assistance grant program	10,000,000	Section 9 of Senate Bill No. 2371 appropriates \$10 million from the state disaster relief fund to the Adjutant General for providing: <ul style="list-style-type: none"> • Additional rebuilders loan program funding to the Bank of North Dakota. • Funding to political subdivisions for flood-impacted housing rehabilitation. Funding must be used as deemed most effective in that community to assist homeowners in rehabilitation or replacement of their flood-damaged homes and to retain homeowners in the community.
Road grade raising grants	6,000,000	Section 14 of Senate Bill No. 2371 appropriates \$6 million from the state disaster relief fund to the Department of Transportation for grants to counties for road grade raising projects on federal aid-eligible roads.
Total	\$48,700,000	

⁴Section 6 of 2009 Senate Bill No. 2012 authorized up to \$20 million from the state disaster relief fund to be used for providing emergency snow removal grants to counties, cities, and townships in accordance with Section 7 of Senate Bill No. 2012. Section 7 of Senate Bill No. 2012 provided that a county, township, or city may apply to the Department of Emergency Services for an emergency snow removal grant for reimbursement of up to 50 percent of the costs incurred by the county, township, or city for the period January 2009 through March 2009 that exceed 200 percent of the average costs incurred for these months in 2004 through 2008. The Department of Emergency Services distributed these grants prior to June 30, 2009.

⁵Section 2 of 2011 Senate Bill No. 2369 authorized up to \$9 million from the state disaster relief fund to be used for providing emergency snow removal grants to counties, cities, and townships. Section 2 of Senate Bill No. 2369 provided that a county, township, or city may apply to the Department of Emergency Services for an emergency snow removal grant for reimbursement of up to 60 percent of the costs incurred by the county, township, or city for the period January 2011 through March 2011 that exceed 200 percent of the average costs incurred for these months in 2004 through 2008. The Department of Emergency Services distributed \$9 million in grants prior to June 30, 2011, and reported to the Budget Section regarding the grants awarded under this section on September 15, 2011.

⁶Section 6 of 2009 Senate Bill No. 2012 authorized up to \$23 million from the state disaster relief fund to be used for paying costs relating to the 2009 flood disaster, snow removal damage to roads, and other disasters in accordance with Section 8 of Senate Bill No. 2012. Section 8 of Senate Bill No. 2012 provides that a political subdivision receiving federal emergency relief funding relating to disasters occurring from January 2009 through June 2009 may apply to the Department of Emergency Services for an emergency relief grant of up to 50 percent of the local match required to receive the federal emergency relief funding.

⁷Section 1 of 2011 Senate Bill No. 2016 includes spending authority of \$7.8 million from the state disaster relief fund for expenses related to the 2009 flood disaster (\$3,369,258) and other unclosed state disasters (\$4,473,046) in the 2011-13 biennium.

⁸Section 5 of 2011 Senate Bill No. 2016 appropriates \$3.5 million from the state disaster relief fund to the Adjutant General for the purpose of providing the required state share of funding for defraying the expenses associated with presidentially declared disasters pursuant to North Dakota Century Code Section 37-17.1-27.

⁹Section 4 of 2011 Senate Bill No. 2369 appropriates \$22 million from the state disaster relief fund for flood-related costs for the remainder of the 2009-11 biennium and for the 2011-13 biennium. Subject to Emergency Commission and Budget Section approval, the Adjutant General may use the funding for city flood mitigation projects (up to \$3.2 million) and for disaster relief relating to 2011 spring flooding, road grade raising projects, 50 percent of the local match for disasters occurring from January 2011 through June 2011, and state expenses associated with presidentially declared disasters in the state. As of September 2011 the Adjutant General has received Emergency Commission and Budget Section approval for 2011-13 expenses of \$17.5 million for flood disasters, \$1.2 million for funding specific city flood mitigation projects, and \$4.8 million for road grade raising and matching grants to political subdivisions.

¹⁰Estimated 2011 flood costs total \$674 million as of October 2011. The estimated state share of these costs to be paid by the Department of Emergency Services is \$47.13 million, of which \$2.87 million was spent in the 2009-11 biennium, leaving \$44.26 million as the remaining state share. Prior to the November 2011 special legislative session, 2011-13 biennium appropriation authority of \$15.6 million was available for 2011 flood relief expenditures from the state disaster relief fund and the state disaster relief fund had an estimated ending balance of \$1.18 million. The Legislative Assembly in the November 2011 special legislative session provided a transfer and appropriation authority of \$29.5 million from the state disaster relief fund to the Adjutant General for providing the required state share of funding for expenses associated with presidentially declared state disasters. The amount of state matching funds needed to be paid by the end of the 2011-13 biennium is not yet known.

¹¹In 2011 Senate Bill No. 2016, the Legislative Assembly provided authority to the Department of Emergency Services to utilize funding from the state disaster relief fund to contract for services to coordinate disaster response organizations with state and political subdivision disaster response efforts, including all aspects of disaster recovery from preparedness training through cleanup for declared or undeclared disasters.

¹²Total 2011-13 appropriation authority consists of:

\$22,000,000	see footnote 10
3,500,000	see footnote 8
7,842,304	see footnote 7
400,000	see footnote 11
29,500,000	see footnote 3

5,000,000 see footnote 3
10,000,000 see footnote 3
6,000,000 see footnote 3

\$84,242,304 The amount available in the state disaster relief fund is estimated to be \$617,137 less than the amount needed to provide for all funds appropriated from the fund. The exact amount of state matching funds required to be paid by the end of the 2011-13 biennium is not yet known and may be less than the full appropriation amount for the 2011-13 biennium.

FUND HISTORY

Section 37-17.1-27 (Section 4 of 2009 Senate Bill No. 2012) establishes a state disaster relief fund. In 2011 Senate Bill No. 2369, the Legislative Assembly amended Section 37-17.1-27 to limit use of money in the fund for only the required state share of funding for expenses associated with presidentially declared disasters in the state and to require Emergency Commission and Budget Section approval of the use of money in the fund. Any interest or other fund earnings must be deposited in the fund.

¹This amount relates to \$56,456,581 of federal fiscal relief funding received by the state, \$50,000,000 in direct payments and \$6,456,581 received as enhanced federal medical assistance percentage (FMAP) reimbursements relating to 2001-03 biennium expenditures which were not received until the 2003-05 biennium.

²Actual July 1, 2011, balance.

³General fund appropriations for the 2011-13 biennium of \$4,236,686,460 consist of \$4,066,853,792 approved by the Legislative Assembly during its 2011 regular legislative session and \$169,832,668 approved by the Legislative Assembly during its November 2011 special legislative session.

⁴The estimated general fund ending balance does not reflect any potential transfers at the end of the 2011-13 biennium from the general fund to the budget stabilization fund pursuant to North Dakota Century Code Chapter 54-27.2.

MEMORANDUM ON TOTAL GENERAL FUND AND SPECIAL FUNDS APPROPRIATIONS FOR THE 1967-69 THROUGH 2011-13 BIENNIUMS AND THE RELATIONSHIP TO TOTAL PERSONAL INCOME

The following schedule presents the general fund and special funds appropriations for the 1967-69 through 2011-13 bienniums. It includes an analysis of the relationship between appropriations and the total personal income in the state. This analysis indicates that the percentage of general fund appropriations to personal income has varied with the highest percentage occurring in the 2011-13 biennium and the lowest percentage occurring in the 1973-75 biennium. Regarding all funds appropriations, the highest percentage occurred in the 2011-13 biennium and the lowest percentage in the 1973-75 biennium.

The biennial appropriation totals include major deficiency appropriations for the various bienniums made by subsequent Legislative Assemblies. The special funds appropriation totals do not necessarily reflect total expenditures of special funds since in some instances federal funds and certain fees are not specifically appropriated but authorized to be spent by Emergency Commission action or continuing appropriations.

⁴In addition, changes made to general fund appropriations were (a) reductions of \$12,965,250 as a result of Legislative Assembly action in 1987; (b) a \$44,125,917 reduction as of May 1987 as a result of a 4 percent allotment reduction made by the Governor; and (c) an increase of \$4,388,862 for Emergency Commission action and 1983-85 carryover.

⁵In addition, changes made to general fund appropriations were reductions of \$3,175,000 required because of the cable television sales tax referral and \$21 million budget allotment mandated by the Governor in September 1988.

⁶This amount is adjusted for revisions made to general fund appropriations, including reductions of \$95,763,770 resulting from the December 1989 sales and individual income tax referrals, increases of \$5,967,192 relating to the use of the budget stabilization fund, and increases of \$22,395,712 resulting from an August 1990, 2 percent unallotment.

⁷This amount is adjusted for revisions made to special funds appropriations, including reductions of \$14,876,540 resulting from the December 1989 gas tax referral and a net reduction of \$1,003,977 resulting from higher education tuition increases and Department of Human Services estimated income adjustments.

⁸Estimated amount from Wharton Econometric Forecasting Associates (WEFA), Inc., Regional Forecasting Service.

⁹In addition, the Legislative Assembly in 1991 House Bill No. 1046 appropriated up to \$9.5 million from the general fund for rural development if 1991-93 biennium revenues were more than 1991-93 revenue estimates made by the Legislative Assembly in 1991, excluding the effect of Sunday opening, by at least \$11 million. This did not become effective. This amount does not reflect budget allotments ordered by the Governor during the 1991-93 biennium of \$4,305,000.

¹This schedule presents totals of appropriations and revenues recommended in the executive budget compared to the appropriations and revenues approved by the Legislative Assembly. Appropriation totals are adjusted to reflect deficiency appropriations made by succeeding Legislative Assemblies which are reflected in the previous biennium appropriation amounts.

²The general fund revenues include estimated general fund balances at the beginning of a biennium which are in several instances adjusted to reflect deficiency appropriations.

The following is a summary of major action by the Legislative Assembly affecting general fund revenues:

- The Legislative Assembly in 1967 increased the sales tax from 2.25 percent to 3 percent.
- The Legislative Assembly in 1969 repealed the personal property tax, increased the sales tax from 3 percent to 4 percent, and enacted the business privilege tax. Also, the Legislative Assembly reduced the executive budget general fund revenue estimates (primarily income tax estimates) by \$4.7 million.
- The Legislative Assembly in 1973 increased the estimated July 1, 1973, general fund balance from the executive estimate by \$3 million and increased executive budget 1973-75 revenue estimates for sales and income tax collections by \$3.3 million. In addition, revenue estimates were reduced by exempting food purchases from the sales tax, revising the income tax rates, and repealing the tax on oleomargarine.
- The Legislative Assembly in 1975 increased the July 1, 1975, estimated general fund balance from the executive estimate by \$14 million because of increased sales and income tax collections and increased the executive budget 1975-77 revenue estimates for sales and income tax collections by \$10 million. In addition, a coal conversion tax and a coal severance tax were enacted. Also, revenue estimates were reduced by enacting the income tax inflation credit, reducing the business privilege tax, requiring driver's license fees to be deposited in the highway fund rather than the general fund, and amending the estate tax laws so no portion of estate tax collections are deposited in the state general fund.
- The executive budget and legislative revenue estimates for the 1977-79 biennium reflect the reduction of the sales tax from 4 percent to 3 percent.
- The Legislative Assembly in 1979 increased the June 30, 1979, estimated general fund balance from the executive budget estimate by \$4 million because of increased income tax collections for the 1977-79 biennium and increased estimated income tax collections for the 1979-81 biennium by \$7 million.

- The Legislative Assembly in 1981 reduced estimated income tax collections by \$51.7 million as a result of an updating of the definition of federal taxable income and reducing income tax rates, changed the percentage of oil extraction tax going to the general fund from 45 percent to 30 percent resulting in a reduction of \$39,766,667, transferred a portion of the oil and gas gross production tax to the highway tax distribution fund and townships resulting in a reduction of \$32 million to general fund revenues, and added \$21.5 million due to a March 19, 1981, Executive Budget Office revision of revenue estimates.
- The Legislative Assembly in 1983 reduced revenues by \$58,406,000 due to revised revenue estimates of the Executive Budget Office; increased revenues by \$86,030,000 to change the percentage of oil extraction tax going to the general fund from 30 percent to 90 percent; and provided major tax increases of \$102,750,000 for personal and corporate income taxes, \$41,590,000 in accelerated tax collections, \$8,200,000 million in coal conversion taxes, \$9,500,000 million in cigarette taxes, and \$4,200,000 million in liquor taxes. Also, the executive budget and legislative revenue estimates for the 1983-85 biennium reflect an increase in the sales tax from 3 percent to 4 percent.
- The Legislative Assembly in 1985 reduced general fund revenues by \$56,057,658 due to revised revenue estimates of the Executive Budget Office and increased revenues by \$9,415,651 relating to a transfer from the coal development impact fund to the general fund, by \$5,320,000 to remove the sales tax exemption from candy and selected carbonated beverages, and by \$7,832,450 related to keeping the percentage of the oil extraction tax allocated to the general fund at 90 percent rather than 85 percent in the original executive budget.
- Revenues for the 1985-87 biennium were reduced by \$75,126,740 after the 1985 legislative session consisting of a reduction of \$110,386,758 due to revised revenue estimates of the Executive Budget Office, primarily a result of significant oil tax revenue shortfalls; an increase of \$18,984,018 due to a higher than estimated July 1, 1985, general fund balance; and increases totaling \$16,276,000 as a result of the 1986 special session action, of which \$13,276,000 relates to a one-cent sales and use tax increase for the last six months of the 1985-87 biennium, and a \$3 million increase relating to increasing the individual income tax from 10.5 percent to 14 percent and implementing mandatory withholding effective January 1, 1987 (this is the fiscal impact after the referral measure relating to the income tax increase was defeated in March 1987).
- The Legislative Assembly in 1987 increased general fund revenues by \$9,220,000 due to revised revenue estimates of the Executive Budget Office by \$46,140,000 due to a temporary .5 percent sales, use, and aircraft excise tax increase from 5 percent to 5.5 percent and to include cable television; by \$8.3 million due to a one-year 10 percent individual income tax surtax; by \$9,724,000 due to a nine-cent per package cigarette tax increase; and by \$4,255,000 due to removing the royalty owners exemption from the oil extraction tax. Revenues were reduced by \$4,625,000 to provide a 15-month oil extraction tax exemption and to reduce the oil extraction tax rate from 6.5 percent to 4 percent for new wells.
- The Legislative Assembly in 1989 increased general fund revenues by \$32,236,000 due to revised revenue estimates of the Executive Budget Office by \$87,241,000 due to a one-cent sales and use tax increase from 5 percent to 6 percent (the actual increase was from 5.5 percent to 6 percent; however, .5 percent was a temporary tax and the rate would have reverted to 5 percent); by \$4,714,200 for a 6 percent sales tax on bingo; by \$42.6 million to increase the individual income tax from 14 percent to 17 percent of federal tax liability and the equivalent increases in the long-form rates; and by \$4.6 million to increase the insurance premium tax rates on accident, health, and other lines, except life insurance, from 1.25 percent to 1.75 percent.
- The Legislative Assembly in 1991 increased general fund revenues by \$16.3 million due to allowing Sunday opening and by \$23.2 million due to a transfer from Bank of North Dakota earnings.
- The Legislative Assembly in 1993 increased general fund revenues by \$11.8 million due to repealing the capital construction fund, which received a portion of the sales, use, and motor vehicle excise tax; by \$15.5 million due to increasing the cigarette tax by 15 cents (from 29 cents to 44 cents) and other tobacco products from 22 percent to 28 percent of the wholesale price; and by \$8.2 million due to increasing the tax on charitable gaming tickets (pull tabs) from 2 percent to 4.5 percent.
- The Legislative Assembly in 1995 increased general fund revenues by \$2.7 million due to increasing court fees and providing that the fees be deposited in the general fund rather than with the counties, additional revenues being projected in the March revenue forecast, and requiring a sales certificate on used vehicle sales. Revenues were reduced as a result of increasing the oil extraction tax allocation to the resources trust fund and decreasing transfers from the Mill and Elevator and state agency 1993-95 estimated turnback.
- The Legislative Assembly in 1997 reduced general fund revenues by \$4.4 million due to decreasing Bank of North Dakota transfers to the general fund, decreasing state aid distribution fund transfers to the general fund, expanding the exemptions from the coal conversion tax, and a reduction resulting from the March revenue forecast. Revenues were increased as a result of estimating additional agency turnback for the 1995-97 biennium and additional oil and gas gross production tax revenues and increasing the percentage of sales and use tax collections that are deposited in the general fund.

- The Legislative Assembly in 1999 reduced general fund revenues by \$20.2 million due to a reduction resulting from the March revenue revision, decreasing Bank of North Dakota transfers to the general fund, and a sales tax rate reduction for used farm machinery and repair parts and used irrigation equipment. Revenues were increased as a result of increased departmental collections from governmental nursing facility payment reimbursements, the contingent sale of developmentally disabled facility loans to the Bank of North Dakota, increased special funds transfers, and additional court filing fee revenue.
- The Legislative Assembly in 2001 increased general fund revenues by \$38 million due to an increase resulting from the March revenue revision, increasing Bank of North Dakota transfers to the general fund, the providing of a transfer from the student loan trust fund, and increased departmental collections from governmental nursing facility payment reimbursements.
- The Legislative Assembly in 2003 increased general fund revenues by \$41.7 million due to an increase resulting from the March revenue revision, a 1 percent lodging tax increase, increasing the transfer from the student loan trust fund, and providing transfers from the water development trust fund and the health care trust fund.
- The Legislative Assembly in 2005 decreased general fund revenues by \$17.4 million due to defeating the executive budget proposal to repeal North Dakota Century Code Section 54-27.2-02 providing for the end of the biennium general fund balance in excess of \$65 million to be transferred to the budget stabilization fund resulting in a reduction in revenue of \$65 million, defeating the executive budget proposal to increase the limit for oil revenues to be deposited in the general fund rather than the permanent oil tax trust fund resulting in a reduction in revenue of \$13.3 million, increasing the transfer from the lands and minerals trust fund, and providing transfers from the permanent oil tax trust fund.
- The Legislative Assembly in 2007 decreased general fund revenues by \$120.85 million due to reducing the income tax "marriage penalty" and providing property tax relief by an income tax credit, decreased general fund revenues by \$12.62 million to deposit motor vehicle excise tax collections in the highway fund rather than the general fund, decreased general fund revenues by \$4.6 million to provide tax reductions and exemptions for heating fuels, and increased general fund revenues by \$115 million by providing a transfer from the permanent oil tax trust fund.
- The Legislative Assembly in 2009 increased general fund revenues by \$103.18 million due to providing a \$435 million transfer from the permanent oil tax trust fund to the general fund, providing individual and corporate income tax rate reductions of \$100 million, removing a \$60 million transfer from the Bank of North Dakota to the general fund, defeating the executive recommendation to increase the limit of oil revenues deposited in the general fund rather than the permanent oil tax trust fund by \$39 million, and depositing \$30.46 million of motor vehicle excise tax collections in the highway fund rather than the general fund.
- The Legislative Assembly in 2011 increased general fund revenues by \$766.67 million due to providing a \$295 million transfer from the property tax relief sustainability fund, providing a \$305 million transfer from the strategic investment and improvements fund, increasing the amount of oil and gas tax revenues deposited in the general fund by \$229 million, transferring the permanent oil tax trust fund balance of \$615 million at the end of the 2009-11 biennium, removing a transfer of \$60 million from the Bank of North Dakota, removing a transfer of \$239 million from the lands and minerals trust fund, removing a transfer of \$232 million from the permanent oil tax trust fund, defeating the executive recommendation to deposit \$45.7 million of motor vehicle excise taxes in the highway tax distribution fund rather than the general fund, and providing individual and corporate income tax rate reductions of \$145 million.

³This is the amount of general fund appropriations recommended by the Governor in the original executive budget as submitted on December 13-14, 1982. On February 10, 1983, and March 21, 1983, the Governor made specific recommendations in regard to reductions in various general fund appropriations. The Governor also supported an additional general fund foundation aid appropriation due to depositing 90 percent of the oil extraction tax in the general fund. The Governor's revised general fund appropriation level, subsequent to the February 1983 adjustments discussed above, was \$897.8 million, which included an additional \$15.8 million for foundation aid due to a decline in oil revenue estimates. Subsequent to the March 1983 adjustments, the Governor's revised general fund appropriation level was \$973.4 million, which was \$871.5 million plus \$101.9 million due to funding foundation aid from the general fund rather than from oil extraction tax collections.

⁴This is the amount of general fund appropriations recommended by Governor Alan Olson in the original executive budget as submitted on December 6-7, 1984. On February 5, 1985, Governor George Sinner recommended reductions to general fund appropriations which totaled \$72,995,855. Governor Sinner's revised general fund appropriation level was \$1,115,605,614.

⁵In addition to adjustments for deficiency appropriations, Governor Sinner mandated a 4 percent general fund allotment reduction totaling \$44,125,917 as of May 1987, the 50th Legislative Assembly made general fund reductions totaling \$12,965,250, and \$4,388,862 was added for Emergency Commission action and 1983-85 carryover which resulted in a 1985-87 general fund spending level of \$1,081,481,356.

⁶Other adjustments to the 1987-89 legislative general fund appropriations were a \$3,174,998 reduction due to the cable television sales tax referral and a \$20,520,081 reduction from budget allotments ordered by Governor Sinner because of an anticipated reduction in general fund revenues.

⁷In addition, the Legislative Assembly in 1991 House Bill No. 1046, appropriated up to \$9.5 million from the general fund for rural development if 1991-93 revenues were more than the 1991-93 revenue estimates made by the 1991 Legislative Assembly, excluding the effect of Sunday opening, by at least \$11 million. This amount does not reflect budget allotments ordered by Governor Sinner during the 1991-93 biennium of \$4,305,000.

⁸The special funds appropriation increase results primarily from the Legislative Assembly appropriating \$476.3 million of higher education local funds for the 1999-2001 biennium.

⁹The special funds appropriation decrease from the prior biennium results primarily from the Legislative Assembly removing \$755,859,048 of higher education tuition income and local funds by providing a continuing appropriation for higher education special funds, including tuition income and local funds. If higher education tuition income and local funds had been specifically appropriated, the 2001-03 legislative budget for special funds would have been approximately \$3,778,556,031, a \$513,284,687 increase from the 1999-2001 special funds legislative budget of \$3,265,271,344.

¹⁰In addition to an adjustment for deficiency appropriations, Governor John Hoeven mandated a 1.05 percent general fund allotment reduction totaling \$18,343,329 in July 2002.

¹ The Legislative Assembly in 2009 provided in Senate Bill No. 2012 weather-related transportation cost-sharing funds to counties and cities (\$41.4 million), townships (\$10 million), and the public transportation fund (\$1 million).

² The Legislative Assembly in 2009 provided in Section 34 of House Bill No. 1015, \$250,000 from the general fund to provide grants to cities that experienced tornado damage in the summer of 2007 for the purpose of matching federal emergency relief funds.

³ The Legislative Assembly in 2009 provided in Senate Bill No. 2333 a \$1.2 million contingent general fund appropriation for providing funds to local public health units for immunization services. The appropriation is contingent on total funds available to the state for immunization services under the American Recovery and Reinvestment Act of 2009. The State Department of Health reported the American Recovery and Reinvestment Act of 2009 funding could not be used for this purpose and the department would use the funding from the general fund. The Legislative Assembly in 2011 provided in Senate Bill No. 2276 a \$1.5 million general fund appropriation for the purpose of funding a program through which the State Department of Health purchases vaccines through the federal vaccine purchasing contract.

⁴ The 2003-05 appropriation consists of \$720,000 of state funding to providers for matching federal Title III funds and \$1,662,945 for senior citizen mill levy match. The 2005-07 appropriation consists of \$720,000 of state funding to providers for matching federal Title III funds in the Department of Human Services.

⁵ The Department of Human Services is unable to determine the amount of general fund support in the department's 2011-13 legislative appropriation for state administration of child support.

- ⁶ The Legislative Assembly during its November 2011 special legislative session provided a contingent one-time general fund appropriation to the State Treasurer for providing transportation funding distributions to non-oil-producing counties, cities, and townships. Funding is contingent on oil and gas tax revenue collections for the period July 1, 2011, through February 29, 2012, exceeding oil and gas tax revenue collection forecasts for that period by at least \$48 million. The State Treasurer must distribute \$6.8 million to non-oil-producing counties and cities pursuant to subsection 4 of North Dakota Century Code Section 54-27-19, \$1.7 million to counties and townships in non-oil-producing counties pursuant to Section 54-27-19.1, and \$14.5 million to counties and townships in non-oil-producing counties through a distribution of \$10,000 to each organized township and a distribution of \$10,000 for each unorganized township to the county in which the unorganized township is located.
- ⁷ The Legislative Assembly during its November 2011 special legislative session provided a \$30 million one-time general fund appropriation to the Land Department for providing infrastructure development grants to flood-impacted political subdivisions.
- ⁸ The Legislative Assembly in 2011 provided for a transfer of \$142 million from the general fund to the highway fund for county and township roadway projects in areas affected by oil and gas development.
- ⁹ The Legislative Assembly during its November 2011 special legislative session provided a one-time transfer of \$48.7 million from the general fund to the state disaster relief fund for disaster-related expenses (\$32.7 million) to provide adequate funding for the state share of 2011 disaster expenditures (\$29.5 million) and 50 percent of the local share of potential 2012 disaster expenditures (\$5 million), additional rebuilders loan funding and flood-impacted housing rehabilitation (\$10 million), and road grade raising grants (\$6 million).
- ¹⁰ The Legislative Assembly during its November 2011 special legislative session provided a one-time transfer of \$5 million from the general fund to the oil and gas impact grant fund for distributions of \$1.25 million for each new major oil and gas-producing county after November 2011 to address the impact from new oil and gas development. A major new oil-producing county is one that produced less than 100,000 barrels of oil in November 2011 and subsequently has more than four rigs in the county.
- ¹¹ The Legislative Assembly during its November 2011 special legislative session provided a contingent one-time transfer of \$30 million from the general fund to the oil and gas impact grant fund for providing oil and gas impact grants in accordance with Sections 57-62-03.1 and 57-62-05. For these funds, the Land Department is to give priority to approving grants related to emergency services. The transfer is contingent upon total oil and gas tax revenue collections for the period July 1, 2011, through February 29, 2012, exceeding oil and gas tax revenue collection projections for that period by at least \$48 million.
- ¹² The Legislative Assembly in 2009 provided in House Bill No. 1305, \$2.792 million from the permanent oil tax trust fund for grants to local water supply projects in Burke, Divide, Mountrail, and Williams Counties and in Senate Bill No. 2305, \$342,000 from the resources trust fund to conduct a Beaver Bay embankment feasibility study during the 2009-11 biennium. The projects will not be completed during the 2009-11 biennium; therefore, the Legislative Assembly in 2011 authorized \$500,000 of the funding to continue during the 2011-13 biennium. In addition, the Legislative Assembly in 2011 provided \$250,000 for flood-related water projects in the Nelson County Water Resource District.
- ¹³ The Legislative Assembly in 1987 House Bill No. 1590 provided that .6 of an equivalent of 1 percent of the sales, use, and motor vehicle excise tax shall be deposited into the state aid distribution fund to be used beginning July 1, 1989.
- The Legislative Assembly in 1997 House Bill No. 1019 reduced the .6 to .4 of an equivalent of 1 percent of the sales, use, and motor vehicle excise tax to be deposited into the state aid distribution fund beginning January 1, 1999. The Legislative Assembly also added a continuing appropriation so all revenues deposited into the state aid distribution fund are appropriated for payments to political subdivisions. The change also eliminated the 50 percent for personal property tax replacement and 50 percent for revenue sharing and instead provided that 53.7 percent of the revenues in the fund be distributed to counties and 46.3 percent of the revenues be distributed to cities.
- ¹⁴ Prior to the 2009-11 biennium, \$3 of each motor vehicle registration fee was deposited in the public transportation fund. Beginning with the 2009-11 biennium, the \$3 fee is deposited in the highway tax distribution fund, and the public transportation fund receives 1.5 percent of distributions from the highway tax distribution fund. The 2011-13 amounts include a \$100,000 transfer from the general fund to the public transportation fund.
- ¹⁵ The Legislative Assembly in 2005 removed the senior citizen mill levy matching grant program from the Department of Human Services and provided in Senate Bill No. 2267 that the State Treasurer distribute senior citizen mill levy matching grants pursuant to a continuing appropriation from the senior citizen services and programs fund. The fund consists of sales, use, and motor vehicle excise tax collections equivalent to two-thirds of one mill levied statewide each year. The Legislative Assembly in 2011 Senate Bill No. 2242 increased the amount of collections allocated to the fund to three-fourths of one mill levied statewide each year.
- ¹⁶ House Bill No. 1013 (2011) provides \$99,778,269 for energy infrastructure and impact grants from money deposited in the oil and gas impact grant fund. Of this amount, Senate Bill No. 2150 (2011) provides \$5 million to the Superintendent of Public Instruction for the purpose of providing a grant to any school district that can demonstrate rapid enrollment growth and Senate Bill No. 2325 (2011) provides \$350,000 to the Upper Great Plains Transportation Institute for a transportation study.

- ¹⁷ Prior to the 2009-11 biennium, 37 percent of the funds in the highway tax distribution fund were allocated to counties and cities, and one cent per gallon of motor fuels taxes was deposited in the township highway aid fund. Beginning with the 2009-11 biennium, counties and cities receive 34.5 percent of distributions from the highway tax distribution fund, the one cent per gallon of motor fuels taxes originally deposited in the township highway aid fund is deposited in the highway tax distribution fund, and townships receive 2.7 percent of distributions from the highway tax distribution fund.
- ¹⁸ Beginning in the 2001-03 biennium, the coal severance tax allocation is based on the provision that 70 percent of the tax revenue is allocated among coal-producing counties. Previously, 35 percent had been allocated to coal-producing counties.
- Beginning in the 2001-03 biennium, the coal conversion tax allocation is based on the provision that 15 percent of the tax revenue is allocated to the county in which the plant is located. Previously, 35 percent had been allocated to the county in which the plant is located.
- ¹⁹ The oil and gas gross production tax allocation is based on a formula which provides for a varying percentage of revenue to go to the producing county based on the total amount of production tax revenue generated by the county. Prior to the 2009-11 biennium, the total a county may receive is capped based on the population of the county. The 2009-11 amount is based on a formula which provides for a varying percentage of revenue to go to the producing county based on the total amount of production tax revenue generated by the county but is not restricted by the population of the county.
- ²⁰ The Legislative Assembly in 2009 provided in Senate Bill No. 2012, \$43 million from the state disaster relief fund for emergency snow removal grants (\$20 million) and funding for the local match needed to receive federal disaster relief funding (\$23 million).
- ²¹ Section 4 of Senate Bill No. 2369 (2011) provides an appropriation of \$22 million from the permanent oil tax trust fund to the state disaster relief fund and provides authority for the Adjutant General to use the funding for disaster relief relating to 2011 spring flooding, flood disasters in incorporated cities, road grade raising projects, 50 percent of the local match for disasters occurring from January 2011 through June 2011, and state expenses associated with presidential-declared disasters in the state. Senate Bill No. 2016 (2011) provides authority to the Adjutant General to use up to \$3.5 million from the state disaster relief fund for the purpose of providing the required state share of funding for defraying the expenses associated with presidential-declared state disasters pursuant to Section 37-17.1-27. In addition, the Legislative Assembly during its November 2011 special legislative session appropriated \$29.5 million from the state disaster relief fund for additional disaster-related costs and \$5 million from the state disaster relief fund for paying 50 percent of the local share for potential major 2012 disasters. These \$34.5 million appropriations are not reflected in the amount shown because funding (\$32.7 million) for these is included as part of the \$48.7 million transfer from the general fund to the state disaster relief fund reflected under the general fund section of this schedule.
- ²² Senate Bill No. 2369 (2011) provided that the Adjutant General may use \$9 million from the state disaster relief fund for emergency snow removal grants to be awarded by June 30, 2011. Any unawarded amount of the \$9 million may be utilized in the 2011-13 biennium for disaster relief initiatives as outlined in Section 4 of Senate Bill No. 2369.
- ²³ The cigarette tax allocation is based on the provision that 3 cents per regular package and 3.75 cents per larger package are distributed to cities based on population.
- ²⁴ The Legislative Assembly in 2009 reduced 2009-11 state school aid per student formula payments provided from the general fund by \$13.5 million, from \$649.9 million provided in the 2007-09 biennium to \$636.4 million for the 2009-11 biennium. In addition, the Legislative Assembly in 2009 provided \$85.6 million of one-time federal funds made available to the state under the American Recovery and Reinvestment Act of 2009 and \$86.3 million of state tuition fund distributions for state school aid per student formula payments.
- ²⁵ In addition, the Legislative Assembly in 2011 provided \$101.638 million of state tuition fund distributions for state school aid per student formula payments and approved amendments to the 2009 Session Laws to provide that the Department of Public Instruction carry over \$9 million of estimated excess funding for state school aid (\$8 million from state school aid and \$1 million from transportation aid) from the 2009-11 biennium to the 2011-13 biennium for state school aid per student payments. Any additional excess funds remaining at the end of the 2009-11 biennium are to be distributed according to House Bill No. 1400 (2009). The Legislative Assembly in 2011 also provided \$21.2 million of one-time federal education jobs funding made available to the state under federal H.R.1586 signed into law in August 2010 and \$5 million from the oil and gas impact grant fund for rapid enrollment grants.
- ²⁶ This is funding provided to school districts as mill levy reduction grants (property tax relief); however, school districts are required to lower property tax mill levies resulting in a reduction of property tax revenue equal to the amount of the mill levy reduction grants.
- ²⁷ The Legislative Assembly in 2009 provided in Section 16 of House Bill No. 1013 a \$5 million contingent general fund appropriation for transportation aid payments to school districts. The appropriation is contingent on the June 30, 2011, estimated ending general fund balance exceeding the amount predicted by the Office of Management and Budget at the conclusion of the 2009 legislative session by more than \$30 million. The February 2011 legislative revenue forecast estimates the conditions will be met and the contingent supplemental funding will be made available.
- ²⁸ The Legislative Assembly in 2011 approved amendments to the 2009 Session Laws to provide that the Department of Public Instruction reserve \$9 million of estimated excess funding for state school aid (\$8 million from state school aid and \$1 million from transportation aid) from the 2009-11 biennium and carry over the funding to the 2011-13 biennium for state school aid per student payments. The Legislative Assembly in 2011 provided that after reserving the \$9 million for state school aid per student payments in the 2011-13 biennium, the next \$500,000 of 2009-11 excess state school aid funding be reserved for adult education learning center grants to be disbursed if federal funding for adult education received by the department is less than \$900,000 in any year of the 2011-13 biennium.

²⁹ The Legislative Assembly provides funding from the general fund for the statewide information technology network connections for kindergarten through grade 12 and public libraries, net of an e-rate credit.
